QUAKE SLID MOUNTAINS INTO VALLEYS

RESORTS SINK INTO EARTH AS SHOCKS COME

Bathers Are Swept Seaward and Perish in Huge Waves Following Tremors

HOTELS ARE DESTROYED

Many Resorts Sink Into Earth—Many Spectacular Incidents of Quake Reported

(By the Associated Press)

Stories of mountains that slid into their valleys of huge waves that swept seaward hundreds of cubic yards of coral reefs of a Yohannan hotel that literally sank into the earth and of other spectacular incidents witnessed by survivors of the great disaster are being given to the world as communication in and out of Japan is gradually restored.

The Tokyo correspondent of the Chicago Tribune reaching Kobe says that 500 foreigners were killed in Yokohama.

The earthquake and fire left the foreign residential section a ruin; bodies were everywhere when the flames had passed. The hotels of the port city were obliterated; of the 200 guests in the Oriental Palace hotel only a few escaped. The United Club, the Court Cherryman and Bluff hotels also were wrecked with loss of life. The latter, situated on the heights, toppled into the ruins at the base of the bluff.

Thomas D. Cochran, an American motion picture man, was at a mountain resort with his family when the first quake came. Great slides occurred in the mountains, he said, and roads were wiped out and houses demolished.

135,000 Homeless

In Tokyo, 135,000 persons are without shelter but order prevails. There are no further rumors of cholera. The loss of life in the capital was "as large as first reported" according to the first message sent over the re-established Tokyo-Kobe line. Probably 10,000 people lost their lives in the urban section, most of which was spared.

Secretary Hoover believes that material losses in Japan have been greatly over-estimated and says it is absurd to say that the damage will amount to five billions of dollars. Mr. Hoover points out that the principal destruction was to commercial organizations in Tokyo and Yokohama and that labor agriculture, factory capacity and organizations throughout the empire have not been impaired.

Nearly half of the five million dollar quota which the American Red Cross set as its goal has been raised.

200 FOREIGNERS RESCUED

Washington, Sept. 8.—Two hundred foreigners were killed at Yokohama, according to the navy department's latest word. Today that port received two messages from Admiral Anderson, commander-in-chief of the Asiatic fleet. One hundred and thirty foreign refugees, most of them Americans and Englishmen, were at Hakone, he reported, and others were arriving at Kobe.

MANY AMERICANS SAFE

Washington, Sept. 8.—The safety of additional Americans caught in the earthquake disaster in Japan was established today in a message to the state department from Consul Davis at Shanghai, transmitting verified reports gathered by Consul Dickover at Kobe.

AMERICAN GIRL DEAD

Washington, Sept. 8.—A dispatch to the Japanese embassy from Tokyo dated today said that the entire personnel of the American embassy was safe except Miss Doris Babbitt, daughter of Elwood G. Babbitt, acting commercial attaché. She was said to have lost her life at Yokohama.

Dam To Obliterate English Village

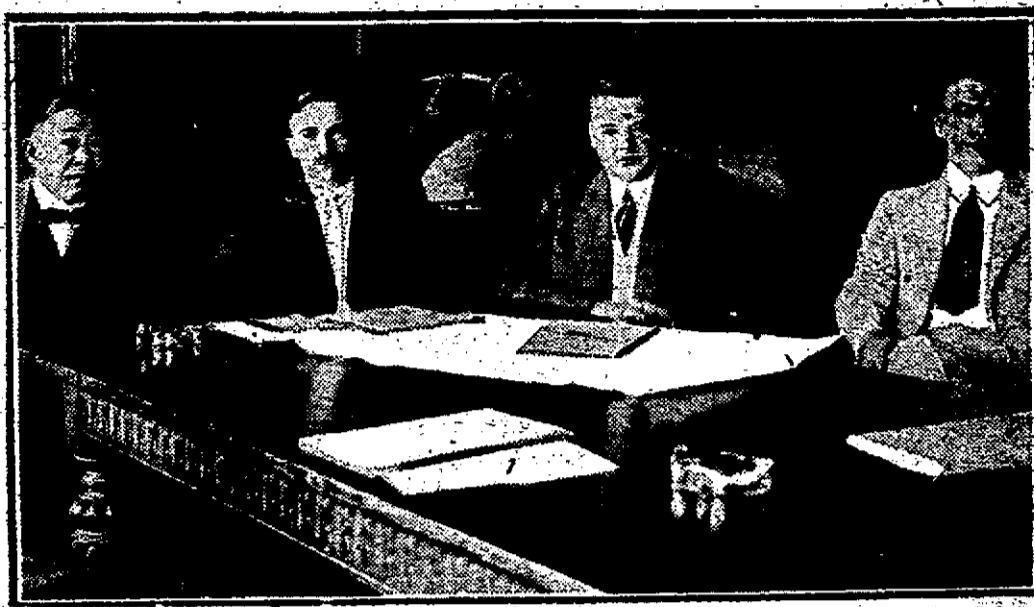

Derbyshire, Sept. 8.—The picturesque village of Derwent, with its dual seat dating back to the seventeenth century will be blotted out in the near future and the population numbering several hundred will be obliged to find fresh homes elsewhere.

The village will be submerged by the construction of a dam in connection with the scheme of development of the Derwent Valley Waterboard. No systematic attempt is to be made to demolish any of the village buildings, the chief of which is a fine stone mansion, Derwent Hall, a seat of the Duke of Norfolk which was built in 1872. A large sum of money will be paid to the owners of the property and for the hall alone the authorities have had to pay \$100,000.

FISHING GOOD IN CANADA

Ottawa, Sept. 8.—Canadian fishermen had better "luck" in 1923 than in 1921. The various concerns fishing the sea and inland waters of the Dominion produced \$42,000,000 worth of fish last year, as against \$35,000,000 the year before. The salmon catch alone was sold for \$18,500,000.

Planning Relief for Stricken Japan

Ambassador Hanhara (left) confers with American Red Cross officials at Washington regarding relief measures for his stricken countrymen. To the right are James L. Fleaser, acting chairman of the Red Cross; Herbert Hoover, member of the central committee; Elliot Wadsworth, acting secretary and treasurer of the Red Cross.

WATER PLANT MAY BE TAKEN OVER LATER

Possibility, However, That City Will Exercise Its Option by Monday Night

TALK FINANCE CHANGE

May Issue Long-Time Bonds Instead of Warrants to Finance Main System

The property of the Bismarck Water Supply company will not be taken over today by the city of Bismarck, but since September 9, is the date of the expiration of the period of 99 days in which the city agreed to take over the plant from the company, it may yet be taken over Monday and be within the spirit of the agreement; it is understood.

Difficulties have arisen with the bond houses which purchased the improvement warrants to be issued in connection with the purchase of the plant and the financing of the additions. C. L. Young, city attorney, and J. H. Atkinson, city auditor, returned at noon from St. Paul where they have been in conference with George P. Flannery, administrator of the Alexander McKenzie estate and president of the water company. Mayor A. P. Lenhart, who also was at the conference, will return later.

Mr. Flannery, it was reported, is still anxious that the deal be carried through and that the city agree to take any steps possible to meet the exigencies of the occasion arising from the actions of the financial houses. Mr. Flannery, however, explained that there are bond holders over whom he has no control other than on the original basis and he, therefore, must confer with them if there is to be any change in arrangements in the shape of an agreement to take over the plant at its later date.

The \$225,000 bonds sold by the city to the financial companies were in turn sold by them very quickly to Twin City investors. The entire issue was taken "like hot cakes" as a bond man expressed it. The money for the bonds was paid to Mayor Lenhart and Auditor Atkinson in Minneapolis so that the city has gone a large way in its financing of the water plant.

The bond companies, because of their experience in selling the city's bonds so quickly and the recognized fine value of Bismarck securities, caused a suggestion to be advanced that in lieu of the improvement warrants the city issue additional bonds, probably \$200,000 bonds, which they would be willing to take as a lower rate of interest than the improvement warrants. It is thought \$2,500 a year interest might be saved by this method.

This afternoon a conference was being held between city officials and leading citizens to go over the situation. While it appeared there might be some delay in completing the contract with Mr. Flannery there appeared to be in the minds of the city officials the belief that it was a question of method only and that the matter would be disposed of finally in due time. There was no question raised as to the procedure of the city under the statutes, it was said.

DROPS HOME RUNS

New York, Sept. 8.—Cy Williams of the Philadelphia Nationals dropped out his thirty-fifth home run in the first inning of today's game.

FOUR CONVICTS MAKE ESCAPE

Columbus, O., Sept. 8.—Four convicts escaped from the Ohio state penitentiary shortly after noon today after scaling the surrounding walls. All prison guards and details of police immediately began combing the vicinity.

STRIKE URGED AS WEAPON IN FARMER FIGHT

Mass Meeting at Burnstad Adopts Resolutions, Sends Them to National Bodies

Burnstad, N. D., Sept. 8.—Farmers in this vicinity propose to strike as a labor union.

Resolutions adopted in a mass meeting held here to discuss the price situation, declare that this method had proved effective for labor unions and should be adopted by the farmers. The resolutions were ordered sent to representatives in Congress and to various national farmers' organizations.

The resolutions and findings were in substance as follows:

"Whereas a serious condition confronts the farmers of the nation due to the mal-adjustment of prices as it is now well-known and our country can not long remain half competitive and half subsidized as it now is; and whereas our own farm economy of the State Agricultural College, Rex E. Willard, has found after a careful survey for the past three years that it cost \$1.49 per bushel to raise wheat while the farmer is receiving right now at the local stations on an average of 85c for all wheats; and whereas there is as great a loss in raising other farm products as wheat with the exception of dairy products and wool; and whereas the farmers of the nation during the late war and at the present time use the strike as a club to force the public to come to their terms regardless of the suffering public; and whereas he it resolved that all farmers and producers of livestock, grain, cotton, etc., unite to refuse to market any of their products excepting dairy products for a set period and at such time as the majority of the executives of the various national farm organizations shall designate."

Fargo To Have Zoning Commission

Fargo, Sept. 8.—Fargo's zoning commission, for which \$500 was provided in the city budget, which passed its first reading at the city commission meeting has not yet organized and is marking time at present.

"The committee is composed of very busy people," said Mr. Lane, a member of the committee, "and they do not wish to spend their time until they are sure that it will be possible to really accomplish something for the city."

It is expected that the committee will meet and organize after it knows just what funds it will have to work with, and at that time what can be done toward putting the provisions of the new zoning law into effect.

PANCHO VILLA FIGHTS TAYLOR

Chicago, Sept. 8.—Pancho Villa, world champion flyweight and Bud Taylor of Terre Haute, Indiana, will meet in a 10-round no decision contest here late today. The little man is under the stipulated weight of 116 pounds, according to their training quarters.

ASK REDUCTION IN TARIFF ON FLAX IMPORTS

Organization Gets Hearing From United States Tariff Commission on Proposal

COST N. D. \$1,000,000?

Secretary of Fargo Organization Asks Others to Enter-est Themselves in Fight

Filing of a petition with the United States Tariff Commission for a reduction of the tariff on flax and vegetable oils has brought many North Dakotans and state organizations into activity.

Reduction of the tariff by 50 percent, which would admit flax from all countries, would make a difference of 50 cents a bushel on flax this year and cost North Dakota farmers one million dollars, it is estimated by W. P. Chesnut, secretary of the Fargo Commercial Club, laying the matter before A. F. Bradley, secretary of the Bismarck Association of Commerce, in a letter received today.

Numerous other state agencies have interested themselves in opposing any change in the tariff.

D. A. Brodie, representative of the National Producers' Federation of Washington, D. C., informed Mr. Chesnut that a hearing has been called by the tariff commission to be held about the last of the month to consider a reduction of the tariff on flax. The hearing is granted on petition of National Paint Manufacturers as well as the National Soap Manufacturers to secure a reduction in the price of flax and vegetable oils. The President, under the flexible provisions of the new tariff act, has power to reduce the rate 50 percent, it was added.

Mr. Chesnut is bringing the matter to the attention of commercial and other organizations in the state.

APPLICATION IS DENIED

The application of J. J. McIsaac to conduct a basement pool hall in Valley City has been denied by Attorney-General George Shatt, in a hearing conducted by Edgar Richter, deputy license inspector.

Mystery Surrounds Deserted Baby

Peking, Sept. 8.—Attracted by the wailing of an infant, a pedestrian recently turned aside into a cemetery outside Hsiehchimen, one of the principal western gates of Peking, and found a new-born child, wrapped in red silk and with a silken cord about its neck.

An envelope attached to the cord contained \$300 in cash and a note asking the finder to use the money for the care of the youngster. The finder was further instructed to appear at a certain place, Wufu, on July 15, three years hence, when, the note said, he would meet with good fortune.

STEALS SUIT

Carrington, N. D., Sept. 8.—Thieves entered the home of Henry Dexter and stole a suit of clothes belonging to him. No clue as to the identity of the thieves is known and search is therefore doubtful. The suit of clothes was found along the right of way. That the garments were apparently "misfits" or were out of style, accounts for the reason of being discarded, it is said.

LEAGUE WANTS ORGANIZATION KEPT INTACT

Differences with Farmer-Labor Party Program Develop in Minnesota

WOULD COOPERATE

Townley Organization Opposes Farmer-Labor Effort Toward Complete Unity

Minneapolis, Sept. 8.—(By the Associated Press)—One faction of the farmer-labor party of Minnesota and the state Nonpartisan League met in separate conferences here today to outline their political activity for next year. Known as an "unofficial" conference as it was called without the sanction of the party's state central committee the farmer-laborite meeting had before it a resolution of the Nonpartisan League against fusion of the two within one party.

This union of all farmer and labor elements into one compact political organization was the primary aim of the farmer-labor conference which was called by William Mahoney, St. Paul labor leader, and Henry Tieggen, secretary of the Nonpartisan League.

Meanwhile the farmer-labor group headed by P. A. Pike, chairman of the party's state central committee, determined in conference to call a state conference for next spring with representation apportioned on the basis of a vote cast for its gubernatorial candidates in the 1922 election.

While the Nonpartisan League in its conference last year decided to continue its present organization and settle its own problems it resolved to "go the limit" in cooperating with labor groups in achieving political results beneficial to both.

PEACE STILL LOOMS AHEAD IN COAL WAR

Governor Pinchot Successful in Getting Miners' Leaders to Concede Points

OPERATORS FOR THEM

Still Are Numerous Points to be Cleared up Before Settlement Is Certain

MAKE WAGE CONTRACT

Harrisburg, Pa., Sept. 8.—A wage contract whose completion and ratification will insure resumption of Anthracite mining at an early date was more than half written at noon when operators and miners temporarily adjourned negotiations.

Completion of agreement has been reached on all issues, major and minor, which have separated the two groups.

L. Lewis, union president, notified members of his committee to hold themselves in readiness for assembly this evening to take the first step in giving union approval. Union negotiators dropped an effort to get a greater wage increase than for mine laborers under the Pinchot settlement term.

FLOGGERS IN SOUTH TAKEN

Arrests Made in Georgia and Texas in Anti-Flogging Crusade by Officials

Macon, Ga., Sept. 8.—J. E. Bloodworth, traveling salesman, was arrested today on warrants charging flogging and assault and battery in connection with recent floggings here. He immediately gave bond in the sum of \$5,000 and was released. It was the seventh arrest in the roundup of alleged floggers.

Port Arthur, Tex., Sept. 8.—Eight arrests and two warrants for arrest of men, four of them city officials, today made up the tally so far scored by Texas rangers in their investigation into recent flogging parties.

The indictments were returned by the grand jury and Capt. Roy Nichols of the ranger force served the warrants.

Three of the Port Arthur officials indicted have been arrested and made bond.

UNCLE SAM OWNS MINES

Is One of Largest Land Owners in World—Royalties Increase

Washington, Sept. 8.—Uncle Sam is one of the largest land owners in the world, and his rents and royalties amount to a stupendous and ever-increasing sum yearly.

Coal and oil lands form the chief part of his holdings, and immense tracts of oil shale lands, deposits of phosphate, potash and other important salts add greatly to his acreage. The Bureau of Mines has supervision over operation of more than a hundred coal mines distributed through eight states, and while at present, mining on public land is overshadowed by private industry, the government mines are increasing constantly in importance. In addition, leases for phosphate development, one oil shale project and four potash operations have been issued.

The growth of leasing operations on oil and gas lands owned by the government has been phenomenal since the passage of the Leasing Act in 1920. In the three years and two months from February 1920 to April 1923, the Bureau administered operations involving \$24 oil and gas leases and 10,608 prospecting permits. Revenues and rentals from these and other leases have totaled about \$2,470,000, a part of which has been turned over to the Reclamation Service to be put back on the land.

PEACE STILL LOOMS AHEAD IN COAL WAR

Governor Pinchot Successful in Getting Miners' Leaders to Concede Points

OPERATORS FOR THEM

Still Are Numerous Points to be Cleared up Before Settlement Is Certain

MAKE WAGE CONTRACT

Harrisburg, Pa., Sept. 8.—A wage contract whose completion and ratification will insure resumption of Anthracite mining at an early date was more than half written at noon when operators and miners temporarily adjourned negotiations.

Completion of agreement has been reached on all issues, major and minor, which have separated the two groups.

L. Lewis, union president, notified members of his committee to hold themselves in readiness for assembly this evening to take the first step in giving union approval. Union negotiators dropped an effort to get a greater wage increase than for mine laborers under the Pinchot settlement term.

MINERS' UNION AGREE TO SETTLEMENT

Miners' union to agree to all of the terms of the proposal he made for adjusting the main points in the controversy which had shut the mines down.

Mine operators had given unequalled agreement to the same terms, but there still remained the necessity of getting a settlement on several union demands considered of minor importance.

There is every prospect that terms for getting the mines back into production will be agreed upon; it was said.

There would be a necessary delay of perhaps 10 days in resuming mining operations, even should adjustments of all terms be made, union spokesmen pointed out. The negotiations would result in the preparation of a tentative contract which would be placed before a convention of miners' delegates from the anthracite region. The convention is yet to be summoned.

Governor Pinchot's proposal that the men be given a flat increase of 10 percent, that all but eight-hour day arrangements be abandoned, that the union be recognized and that principles of collective bargaining be accepted in the industry was accepted by the miners' state committee.

The scale committee authorized its officers to drop the demand for "check-off collection of dues" and likewise the demand for an increase of more than 10 percent for 100,000 day workers in the field.

CONSUL DEAD

Max D. Kiriloff, United States consul at Yokohama, was killed in the earthquake that visited Japan. His wife was also a victim.

TWO COUNTY EXHIBITS TO COUNTY FAIRS

Foster and Morton Counties Will Send Exhibits to Boost Immigration

Two county exhibits—those of Morton and Foster counties—will be sent to agricultural fairs now being held in Iowa, Illinois, Wisconsin and Minnesota. J. M. Devine, commissioner of immigration, who inaugurated a plan to get exhibitions to send the exhibits announced today. Each of the exhibits will be shown in ten counties, Foster in court of the southern counties in Minnesota and Morton county in one county in Wisconsin and two in Central Illinois. Both of the exhibits are up to date in every way and first class. The Foster county exhibit was shown at the state fair at Fargo. The Morton county exhibit has been arranged recently. The Morton county exhibit will stress corn, forage crops and vegetables. Samples of lignite coal and Hebron brick, and clay and pottery made from native clay also will be shown.

Mr. Devine believes the exhibits will be a fine advertisement for North Dakota.

OFFICIALS TO CONVENTION

State Auditor D. C. Foidlender, State Treasurer John Steen and M. E. McIntyre, purchasing agent of the Board of Administration, have gone to Asheville, N. C. to attend the national convention of secretaries of state, treasurers, auditors and purchasing agents.

BURLEIGH RESPONDS TO APPEAL FOR AID FOR QUAKE SUFFERERS

Help Save a Life. Burleigh county's share in the five million dollar American Red Cross fund for the relief of Japanese disaster sufferers is only \$500.

It was San Francisco in 1906; Tokio in 1923. While flames leaped and roared in their seething bed from the Presidio to the eastern limits, from Fillmore street to the San Francisco ferry, Japan cabled \$250,000 for the immediate relief of the stricken city.

Japan was the first of all foreign nations to extend relief on that occasion. Don't forget that.

Put your dime, your dollar, whatever you feel you can spare into the relief fund so that Burleigh county's quota will be raised quickly—for he helps doubly who helps at once.

Every minute counts in the battle with the great scourge of disease that follows in the wake of every great catastrophe.

Do it today—\$500 from Burleigh means only a few cents per capita.

Three contributions of \$10, \$5, and \$2 came into the local Red Cross office yesterday evening almost before the first appeal for funds to aid in relief work in Japan had gone out in the Bismarck Tribune.

All the banks in the county have been considered as receiving houses for the funds of the people in this drive to meet Burleigh county's quota of \$500.

A. L. Schafer, director of the Junior Red Cross, reports that a number of cities are telegraphing their quotas to headquarters in Fargo already. He said, that as a result of Burleigh county's first response, he felt sure that little delay would exist in the raising of the complete total.

JAPANESE RELIEF FUND.

ALLIES BACK ITALY IN NOTE SENT GREEKS

Demand Practically Same Salutes as Asked by Premier Mussolini of Italy

LEAGUE KEEPS OFF

If Greece Accepts Ambassador's Dictates League of Nations Will Not Act

Rome, Sept. 8.—The Italian consulate at Patras, Greece, was burned by a mob during an anti-Italian demonstration, says a dispatch to an Italian newspaper from the correspondent in Corfu who received the news from boatmen arriving from Patras.

The Italian colony, numbering 6,000, organized a counter-demonstration and there were victims on both sides. Police and military surrounded the Italian quarters for its protection.

LEAGUE KEEPS OFF

If Greece Accepts Ambassador's Dictates League of Nations Will Not Act

Rome, Sept. 8.—The Italian consulate at Patras, Greece, was burned by a mob during an anti-Italian demonstration, says a dispatch to an Italian newspaper from the correspondent in Corfu who received the news from boatmen arriving from Patras.

The Italian colony, numbering 6,000, organized a counter-demonstration and there were victims on both sides. Police and military surrounded the Italian quarters for its protection.

SALUTES DEMANDED

Paris, Sept. 8.—The proposals contained in the note which the inter-allied council of ambassadors has sent to Greece are virtually identical to those of the original ultimatum dispatched to Athens by Premier Mussolini.

All the penalties the council would impose are in conformity with the Italian demands except that the Hellenic fleet shall salute the flags of the three allied nations instead of Italy's alone and that the highest Greek military authority shall send his government's regrets for the Jannina murders to the three allied diplomatic representatives in Athens.

Formal Regrets Shall be Presented

Formal regrets shall be presented by the highest Greek military authority to the representatives of the three allied powers in Athens. The salute of the Hellenic fleet shall be celebrated in honor of the slain Italian commissioners in the Catholic Cathedral in Athens with the members of the Greek government in attendance.

Warships of the three allied nations led by an Italian naval division shall steam into Piraeus Roads the morning of the funeral service and the Greek fleet shall salute the Italian British and French flags with 21 guns, which salute shall be returned by the allied warships immediately after the funeral.

Military Honors Shall be Rendered

by Greek military units at Patras while the bodies of the victims are embarked.

LEAGUE MAY NOT ACT

Geneva, Sept. 8.—(By the Associated Press)—If Italy accepts yesterday's decision of the inter-allied council of ambassadors Greece will view her dispute with the Italian government as settled and will not push her request to the League of Nations to investigate the crisis, M. Politis, Greek spokesman, told the correspondents today.

M. Politis added, however, that acceptance by Greece was contingent upon whether the progress of settlement reached at Patras included arrangements for the Italian evacuation of Corfu and the other Greek islands seized by the naval forces of the Rome government.

WEATHER FORECASTS

For Bismarck and vicinity: Fair tonight and Sunday. Not much change in temperature.

North Dakota: Fair tonight and Sunday.

Cooler extreme southeast portion tonight.

General Weather Conditions

The pressure is high over the West and fair, cool weather prevails from the Mississippi Valley to the Pacific Coast. Low pressure, accompanied by precipitation, prevails over the Great Lakes region.

Road Conditions

The roads throughout the State are mostly in good condition, but the Red trail is getting very rough in places.

STRIKE URGED AS WEAPON IN FARMER FIGHT

Mass Meeting at Burnstad Adopts Resolutions, Sends Them to National Bodies

Burnstad, N. D., Sept. 8.—Farmers in this vicinity propose to strike as labor unions.

Resolutions adopted in a mass meeting held here to discuss the price situation, declare that this method had proved effective for labor unions and should be adopted by the farmers. The resolutions were ordered sent to representatives in Congress and to various national farmers' organizations.

The resolutions and finding were in substance as follows: "Whereas a serious condition confronts the farmers of the nation due to the maladjustment of prices as it is now well-known and our country can not long remain half competitive and half-subsidized as it now is; and Whereas our own farm economist of the State Agricultural College, Rex E. Willard, has found after a careful survey for the past three years that it cost \$1.49 per bushel to raise wheat while the farmer is receiving right now at the local stalkers on an average of 85c for all wheats.

"And Whereas there is as great a loss in raising other farm products as now with the exception of dairy products and wool.

"And Whereas the labor unions during the late war and at the present time use the strike as a club to force the public to come to their terms regardless of the suffering public.

"Therefore be it resolved that all farmers and producers of livestock, grain, cotton, etc. unite to refuse to market any of their products excepting dairy products for such a period and at such time as the majority of the executives of the various national farm organizations shall designate."

Fargo To Have Zoning Commission

Fargo, Sept. 8.—Fargo's zoning commission, for which \$500 was provided in the city budget, which passed its first reading at the city commission meeting has not yet organized and is making time at present.

ASK REDUCTION IN TARIFF ON FLAX IMPORTS

Organization Gets Hearing From United States Tariff Commission on Proposal

COST N. D. \$1,000,000?

Secretary of Fargo Organization Asks Others to Enterest Themselves in Fight

Filing of a petition with the United States Tariff Commission for a reduction of the tariff on flax and vegetable oils has brought many North Dakotans and state organizations into activity.

Reduction of the tariff by 50 percent, which would admit flax from other countries, would make a difference of 20 cents a bushel on flax this year and cost North Dakota farmers one million dollars, it is estimated by W. P. Chesnut, secretary of the Fargo Commercial Club, laying the matter before A. F. Bradley, secretary of the Bismarck Association of Commerce, in a letter received today.

Numerous other state agencies have interested themselves in opposing any change in the tariff.

D. A. Brodie, representative of the National Producers' Federation of Washington, D. C., informed Mr. Chesnut that a hearing has been called by the tariff commission to be held about the last of the month to consider a reduction of the tariff on flax. The hearing is granted on petition of National Paint Manufacturers as well as the National Soap Manufacturers to secure a reduction in the price of flax and vegetable oils. The President, under the flexible provisions of the new tariff act, has power to reduce the rate 50 percent, it was added.

Mr. Chesnut is bringing the matter to the attention of commercial and other organizations in the state.

APPLICATION IS DENIED

The application of J. J. McIsaac to conduct a basement pool hall in Valley City has been denied by Attorney-General George Shafer, in reviewing the testimony taken in a hearing conducted by Edgar Richter, deputy license inspector.

Mystery Surrounds Deserted Baby

Peking, Sept. 8.—Attracted by the wailing of an infant, a pedestrian recently turned aside into a cemetery outside Heichimen, one of the principal western gates of Peking, and found a new-born child, wrapped in red silk and with a silken cord about its neck.

An envelope attached to the cord contained \$300 in cash and a note asking the finder to use the money for the care of the youngster. The finder was further instructed to appear at a certain place, Wotuan, on July 15, three years hence, when, the note said, he would meet with good fortune.

STEALS SUIT

Carrington, N. D., Sept. 8.—Thieves entered the home of Henry Dexter and stole a suit of clothes belonging to him. No clue as to the identity of the thieves is known and arrests are therefore doubtful. The suit of clothes was found along the right of way. That the garments were apparently "misfits" or were out of style, accounts for the reason of being discarded, it is said.

LEAGUE WANTS ORGANIZATION KEPT INTACT

Differences with Farmer-Labor Party Program Develop in Minnesota

WOULD COOPERATE

Townley Organization Opposes Farmer-Labor Effort Toward Complete Unity

Minneapolis, Sept. 8.—(By the Associated Press)—One faction of the farmer-labor party of Minnesota and the state Nonpartisan League met in separate conferences here today to outline their political activity for next year. Known as an "unofficial" conference as it was called without the sanction of the party's state central committee the farmer-laborite meeting had before it a resolution of the Nonpartisan League against fusion of the two within one party.

This union of all farmer and labor elements into one compact political organization was the primary aim of the farmer-labor conference which was called by William Mahoney, St. Paul labor leader, and Henry Tiegen, secretary of the Nonpartisan League. Meanwhile the farmer-labor group headed by F. A. Pike, chairman of the party's state central committee, determined in conference to call a state conference for next spring with representation apportioned on the basis of a vote cast for its gubernatorial candidates in the 1922 election. While the Nonpartisan League in its conference late yesterday decided to continue its present organization and settle its own problems it resolved to "go the limit" in cooperating with labor groups in achieving political results beneficial to both.

FLOGGERS IN SOUTH TAKEN

Arrests Made in Georgia and Texas in Anti-Flogging Crusade by Officials

Macon, Ga., Sept. 8.—J. E. Bloodworth, traveling salesman, was arrested today on warrants charging rioting and assault and battery in connection with recent floggings here. He immediately gave bond in the sum of \$5,000 and was released. It was the seventh arrest in the roundup of alleged floggers.

Port Arthur, Tex., Sept. 8.—Eight arrests and two warrants for arrested men, four of them city officials, today made the tally so far according to Texas rangers in their investigation into recent flogging parties.

The indictments were returned by the grand jury and Capt. Roy Nichols of the ranger force served the warrants.

Three of the Port Arthur officials indicted have been arrested and made bond.

UNCLE SAM OWNS MINES

Is One of Largest Land Owners in World—Royalties Increase

Washington, Sept. 8.—Uncle Sam is one of the largest land owners in the world, and his rents and royalties amount to a stupendous and ever-increasing sum yearly.

Coal and oil lands form the chief part of his holdings, and immense tracts of oil shale lands, deposits of phosphate, potash and other important salts add greatly to his acreage. The Bureau of Mines has supervision over operation of more than a hundred coal mines distributed through eight states, and while at present mining on public land is overshadowed by private industry, the government mines are increasing constantly in importance. In addition, leases for one phosphate development, one oil shale project and four potash operations have been issued at present.

The growth of leasing operations on oil and gas lands owned by the government has been phenomenal since the passage of the Leasing Act in 1920. In the three years and two months from February 1920 to April 1923, the Bureau administered operations involving 234 oil and gas leases and 10,608 prospecting permits. Revenues and rentals from these and other leases have totaled about \$2,470,000, a part of which has been turned over to the Reclamation Service to be put back on the land.

PEACE STILL LOOMS AHEAD IN COAL WAR

Governor Pinchot Successful in Getting Miners' Leaders to Concede Points

OPERATORS FOR THEM

Still Are Numerous Points to be Cleared up Before Settlement Is Certain

MAKE WAGE CONTRACT. Harrisburg, Pa., Sept. 8.—A wage contract whose completion and ratification will insure resumption of Anthracite mining at an early date was more than half written at noon when operators and miners temporarily adjourned negotiations.

Completion of agreement has been reached on all issues, major and minor, which have separated the two groups.

John L. Lewis, union president, notified members of his committee to hold themselves in readiness for assembly this evening to take the first step in giving union approval. Union negotiators dropped an effort to get a greater wage increase than for mine laborers under the Pinchot settlement terms.

Harrisburg, Pa., Sept. 8.—Negotiations looking to an end of the mining suspension in the anthracite fields were still under way today. Governor Pinchot was successful late yesterday in getting the leaders of the miners' union to agree to all of the terms of the proposal he made for adjusting the main points in the controversy which had shut the mines down.

Mine operators had given unqualified agreement to the same terms, but there still remained the necessity of getting a settlement on several union demands considered of minor importance.

There is every prospect that terms for getting the mines back into production will be agreed upon, it was said.

There would be a necessary delay of perhaps 10 days in resuming mining operations, even should adjustments of all terms be made, union spokesmen pointed out. The negotiations would result in the preparation of a tentative contract which would be placed before a convention of miners' delegates from the anthracite region. The convention is yet to be summoned.

Governor Pinchot's proposal that the men be given a flat increase of 10 percent, that all flat eight-hour day arrangements be abandoned, that the union be recognized and that principles of collective bargaining be accepted in the industry was accepted by the miners' scale committee.

The scale committee authorized its officers to drop the demand for "check-off" collection of dues and likewise the demand for an increase of more than 10 percent for 100,000 day workers in the field.

BURLEIGH RESPONDS TO APPEAL

FOR AID FOR QUAKE SUFFERERS

Help Save a Life. Burleigh county's share in the five million dollar American Red Cross fund for the relief of Japanese disaster sufferers is only \$500.

It was San Francisco in 1906; Tokio in 1923. While flames leaped and roared in their seething bed from the Presidio to the eastern limits, from Fillmore street to the San Francisco ferry, Japan cabled \$250,000 for the immediate relief of the stricken city.

Japan was the first of all foreign nations to extend relief on that occasion. Don't forget that.

"Put your dime, your dollar, whatever you feel you can spare into the relief fund so that Burleigh county's quota will be raised quickly—for he helps doubly who helps at once."

Every minute counts in the battle with the great scourge of disease that follows in the wake of every great catastrophe.

Do it today—\$500 from Burleigh means only a few cents per capita. Three contributions of \$10, \$5, and \$2 came into the local Red Cross office yesterday evening almost before the first appeal for funds to aid in relief work in Japan had gone out in the Bismarck Tribune.

All the banks in the county have been considered as receiving houses for the funds of the people in this drive to meet Burleigh county's quota of \$500.

A. L. Schafer, director of the Junior Red Cross, reports that a number of cities are telegraphing their quotas to headquarters in Fargo already. He said, that as a result of Burleigh county's first response, he felt sure that little delay would exist in the raising of the complete total.

CONSUL DEAD

Max D. Kirjasoff, United States consul at Yokohama, was killed in the earthquake that visited Japan. His wife was also a victim.

TWO COUNTY EXHIBITS TO COUNTY FAIRS

Foster and Morton Counties Will Send Exhibits to Boost Immigration

Two county exhibits—those of Morton and Foster counties—will be sent to agricultural fairs now being held in Iowa, Illinois, Wisconsin and Minnesota, J. M. Devine, commissioner of immigration, who inaugurated a plan to get counties to send the exhibits, announced today. Each of the exhibits will be shown in ten counties, Foster in court of the southern counties in Minnesota and Morton county in one county in Wisconsin and two in Central Illinois. Both of the exhibits are up to date in every way and first class. The Foster county exhibit was shown at the state fair at Fargo. The Morton county exhibit has been arranged recently. The Morton county exhibit will stress corn, forage crops and vegetables. Samples of lignite coal and Hebron brick, clay and pottery made from native clay also will be shown.

Mr. Devine believes the exhibits will be a fine advertisement for North Dakota.

OFFICIALS TO CONVENTION

State Auditor D. C. Poindexter, State Treasurer John Steen and M. E. McIntyre, purchasing agent of the Board of Administration, have gone to Asheville, N. C. to attend the national convention of secretaries of state, treasurers, auditors and purchasing agents.

LEAGUE MAY NOT ACT

Geneva, Sept. 8.—(By the Associated Press)—Italy accepts yesterday's decision of the inter-allied council of ambassadors Greece will view her dispute with the Italian government as settled and will not push her request to the League of Nations to investigate the crisis, M. Polipis, Greek spokesman, told the council today.

M. Polipis added, however, that acceptance by Greece was contingent upon whether the program of settlement reached at Paris included arrangements for the Italian evacuation of Corfu and the other Greek islands seized by the naval forces of the Rome government.

WEATHER FORECASTS

For Bismarck and vicinity: Fair tonight and Sunday. Not much change in temperature.

For North Dakota: Fair tonight and Sunday.

Cooler extreme southeast portion tonight.

General Weather Conditions. The pressure is high over the West and fair, cool weather prevails from the Mississippi Valley to the Pacific Coast. Low pressure, accompanied by precipitation, prevails over the Great Lakes region.

Road Conditions

The roads throughout the State are mostly in good condition, but the Red trail is getting very rough in places.

ALLIES BACK ITALY IN NOTE SENT GREEKS

Demand Practically Same Salutes as Asked by Premier Mussolini of Italy

LEAGUE KEEPS OFF

If Greece Accepts Ambassador's Dictates League of Nations Will Not Act

Rome, Sept. 8.—The Italian consulate at Patras, Greece, was burned by a mob during an anti-Italian demonstration, says a dispatch to an Italian newspaper from its correspondent in Corfu who received the news from boatmen arriving from Patras.

The Italian colony, numbering 1,000, organized a counter-demonstration and there were victims on both sides. Police and military surrounded the Italian quarters for its protection.

London, Sept. 8.—A Central News dispatch from Rome quoting a message from Corfu says it is reported an anti-Italian demonstration has occurred at Patras, Greece, in which the Italian consulate was burned. The members of the Italian colony retaliated, according to the reports, and two Greeks were killed.

SALUTES DEMANDED

Paris, Sept. 8.—The proposals contained in the note which the inter-allied council of ambassadors has sent to Greece are virtually identical to those of the original ultimatum dispatched to Athens by Premier Mussolini.

All the penalties the council would impose are in conformity with the Italian demand except that the Italian fleet shall salute the flags of the three allied nations instead of Italy's alone and that the highest Greek military authority shall present his government's regrets for the Jishia murders to the three allied diplomatic representatives in Athens.

Demands set forth in the ambassadors' note are:

Formal regrets shall be presented by the highest Greek military authority to the representatives of the three allied powers in Athens.

A funeral service shall be celebrated in honor of the slain Italian commissioners in the Catholic Cathedral in Athens with the members of the Greek government in attendance.

Warships of the three allied nations led by an Italian naval division shall accompany the Italian fleet to the morning of the funeral service and the Greek fleet shall salute the Italian, British and French flags with 21 guns, which salute shall be returned by the allied warships immediately after the funeral.

Military honors shall be rendered by Greek military units at Patras while the bodies of the victims are embarked.

LEAGUE MAY NOT ACT

Geneva, Sept. 8.—(By the Associated Press)—Italy accepts yesterday's decision of the inter-allied council of ambassadors Greece will view her dispute with the Italian government as settled and will not push her request to the League of Nations to investigate the crisis, M. **RED CROSS
ROLL CALL
OPENS OCT. 1**

Officials and Local Chairmen
Meet at Luncheon Monday
to Conclude Plans

SEVERAL SPEAK

Bradley Says No Need For
Community Chest—Use
Old Method

Plans for conducting the Seventh Annual Red Cross Roll Call which will be held Oct. 1 to 15 were discussed at the meeting of the Executive session of the Bismarck county Red Cross committee last evening.

At a noon day luncheon at the County Club Monday the chairman of the two districts, Philip Elliott of Bismarck and C. F. Kelsh of Mandan of this part of the state and a number of officials, including J. P. Hardy of Fargo, director of the Seventh Annual Red Cross Roll Call in North Dakota, A. L. Schafer, director of the Junior Red Cross, Chicago, Walter Westling, field director for the Red Cross in North Dakota, Miss Isabel Caruthers, director of the Red Cross Nursing, in North Dakota, and members of the local Red Cross board, officials from various organizations will be present, and conclude final plans for the drive.

The best methods of conducting the present drive in Bismarck and the outlying towns of Burleigh, McLean and Kidder counties included in this district, were considered and various committees named.

Dr. A. A. Whittemore, state health officer, discussed the significance of the Shepard-Towner Bill, explaining the methods by means of which the counties or cities might obtain an amount equal to that which they would raise from the federal government in the carrying on public health work.

Judge W. L. Nussle pointed out that the acceptance of this "federal aid" would tend to increase the centralization of the federal government at Washington and to weaken local independence.

Dr. F. E. Smyth spoke on public health and its relation to the community.

Mr. Elliott, district chairman of the Red Cross Roll Call, presented his plan for the Roll Call which was discussed by members of the Burleigh county Red Cross board.

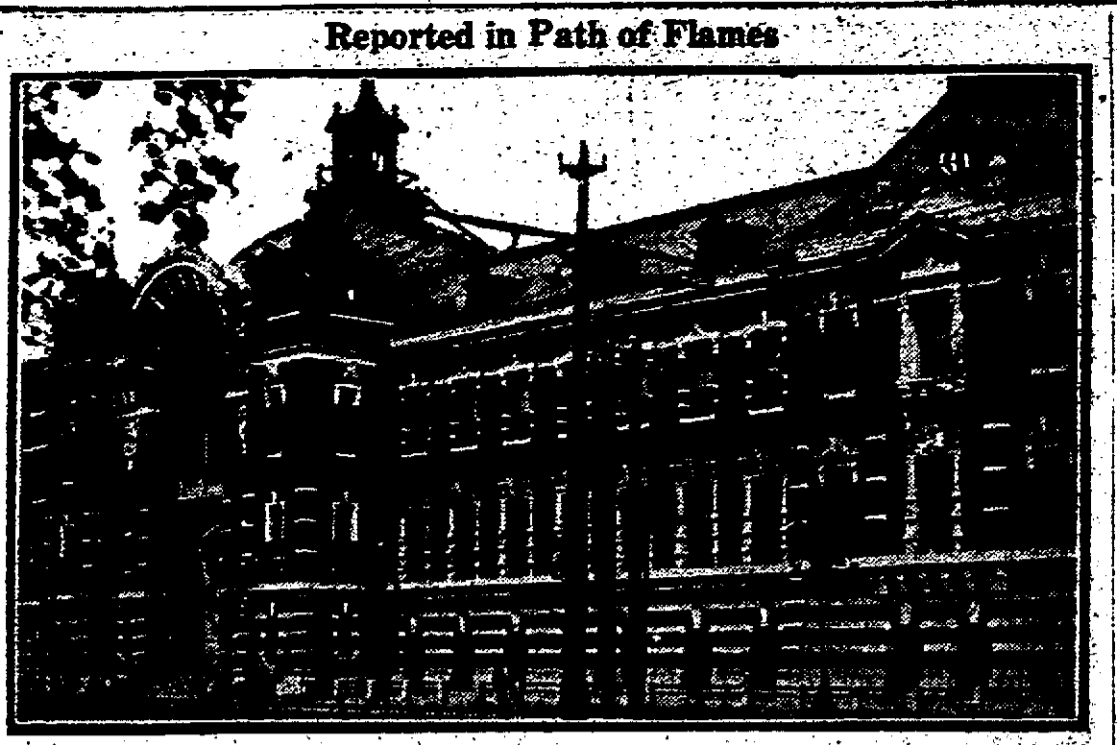

The vice chairman of the various sections of the Roll Call, who will have charge of the Roll Call in the following:

Mrs. Wm. Lake, Apple Creek; Mrs. W. H. Scott, Arena; Mrs. C. J. Bus, Baldwin; Mrs. N. C. Oles, Bismarck; Mrs. E. A. Green, Burnt Creek; Mrs. Knudsen, Driscoll; Mrs. F. J. Prater, Lein; Mrs. Cora Paul, McKenzie; Fred Wells, Mandan; Miss Jean Darnold, Moorhead; Mrs. Grant Palma, North East; Mrs. E. F. Dimond, Regan; H. E. Willfang, Sterling; Mrs. Herman Neuman, Driscoll; Mrs. Geo. Hedra, Stewartville; Mrs. Victor Anderson, Wilton; Mrs. Catherine Edgerton, Wing.

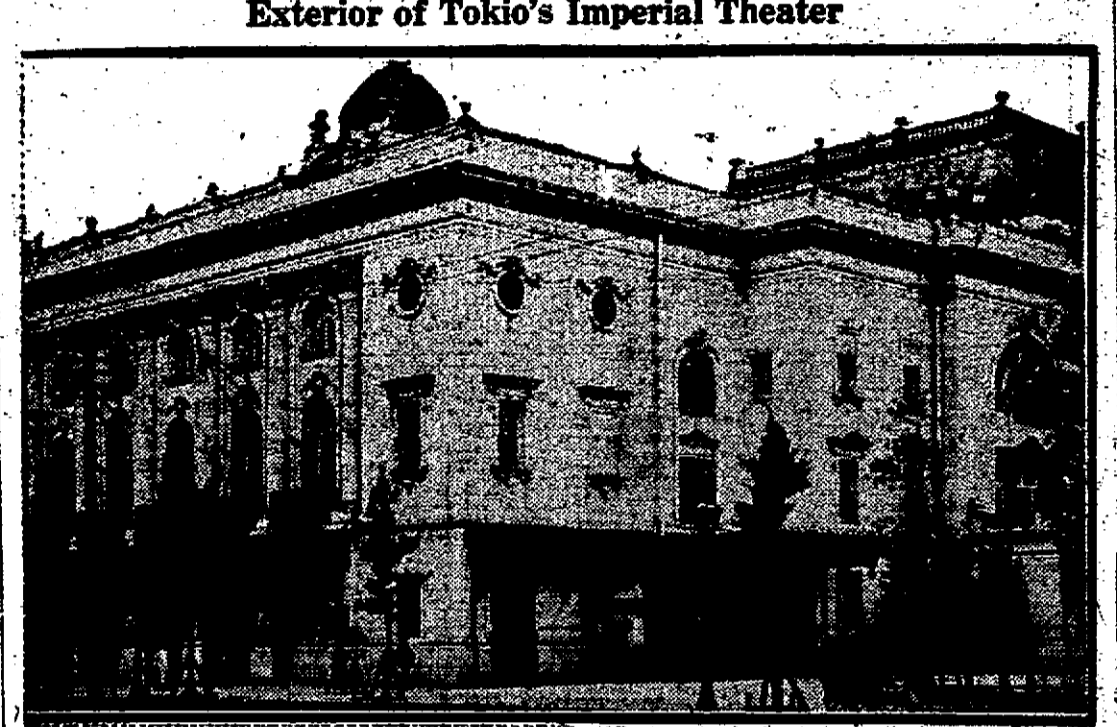

A. F. Bradley, secretary of the Association of Commerce, stated at the meeting that after a conference with Miss Mary Cachel, social worker, it had been decided that it would be unnecessary to have a Community Chest drive, that sufficient money for emergency relief could be obtained out of the civilian relief fund for the Red Cross as in the past.

Mr. Bradley commended the work which Miss Cachel is doing, emphasizing the fact that she has relieved the city and county by seeing that proper organizations took charge of needy cases. In a number of instances of relief cases different counties or states have taken over their care as a result of her efforts.

The registration bureau which has been established at the Red Cross office as a result of cooperation of the Association of Commerce was reported to be functioning efficiently.

Exterior of Tokio's Imperial Theater

More like an American theater than a Japanese did the exterior of the Imperial Theater of Tokio look. It is reported to have been destroyed by the fire when flames finished the work of destruction started in Japan by violent earthquakes.

**G. N. HEAD
SEES BOOM**

Good Railroad Business Is
Predicted in Northwest

St. Paul, Sept. 7.—Record-breaking traffic during the fall months is expected by the Great Northern railway, Ralph Budd, president, who has just returned from an inspection, said today.

In a statement Mr. Budd announced "partial completion of the G. N. \$20,000,000 improvement program for 1923."

Freight loadings have been heavy and with crop movement under way and the usual harvest time expansion of business generally throughout the northwest assured a good business is anticipated.

**COAL TARIFF
IS PROTESTED**

Hearing Held Before I. C. C.
Examiner Here

Examiner Mackay of the Interstate Commerce Commission, Washington, D. C., today completed a hearing in the federal building here involving the Northern Pacific railroad's effort to increase charges for switching on coal for inter-state shipment on the Killdeer line, affecting principally mines around Zap.

The tariff had been filed and suspended by the I. C. C. Upon application of the state railroad commission, pending a hearing.

Stanley B. Houck of Minneapolis and V. E. Smart of the state railroad commission, appearing for the protestants, claimed that the new tariffs would materially cut the business of the mines on interstate shipments.

Mr. Smart and B. W. Pratt of Minneapolis, of the Zap Coal Company, were the chief witnesses for the protestants.

Henry Blakely, freight traffic manager of the N. P. and J. W. Morrison, assistant general freight agent, were in charge of the railroad's case.

The protestants included the High Carbon Coal Company, the Lucky Strike Coal Company, the High-Grade Coal Company, the Zap Coal Company and the Zap Collieries Company.

**CONVENTION
TO BE SIGNED**

Washington, Sept. 7.—Two claims conventions between the United States and Mexico registered at Mexico City by Charles Beecher Warren and John Barton Payne will be signed by American and Mexican plenipotentiaries tomorrow at the state department.

**GOVERNORS FOR
SHORT SESSIONS**

Chicago, Sept. 7.—Most Governors favor a shorter or limited session of the legislature, according to numerous replies of the state executives to a questionnaire of the Illinois Chamber of Commerce and announced today by the Illinois Journal of Commerce. For the past 15 years the Illinois legislature has consumed an average of 175 days.

Governor Newton of North Dakota in his reply said: "Our sessions are limited to sixty days every two years. I am confident that practically the unanimous vote of our people after 34 years of experience would be that the sessions should not be longer."

**AIR PORT IN
CITY IS URGED
BY AVIATORS**

Northwest Ideal Country For
Flying, Says Army Lieutenant Here in Plane

HAVE AN EASY TRIP

Much of Danger of Flying Removed in This Section,
Says Lieut. Bertrandias

North Dakota is a great aviation country, Lieut. Victor Bertrandias, who, with Lieut. Kenneth Garrett, arrived here about noon in an army airfielding airplane, declared after making an easy landing near the state highway commission shops and enjoying luncheon in the city.

"We are out to inspect and locate landing fields," said Lieut. Bertrandias. "But this whole Northwest is one great landing field. Its perfect for aviation and removes most of the hazards. I don't understand why there isn't more flying up here."

The lieutenants said they arrived over Bismarck at 11:55 a. m., and after circling about landed near the highway commission shops instead of at Fort Lincoln. Their actual flying time from Fargo, they said, was two hours and twenty minutes. They are not, they added, out for any speed record.

Secretary A. F. Bradley of the Association of Commerce met the aviators and with William Gittelman of the highway commission brought them to the city. Mr. Bradley sees possibilities of Bismarck becoming an important station on an air mail route from Chicago to Seattle.

"It seems to me that so far there is a perfect air mail route," said Lieut. Bertrandias. "You could fly from Chicago to Bismarck easily in one day, without night flying. I'd like a municipal air park at Ft. Lincoln."

As an example of what he considers the great advantage of this section for aviation, Lieut. Bertrandias said the machine developed ignition trouble after leaving Fargo. He was piloting the ship and he signaled Lieut. Garrett to take the controls. While Lieut. Bertrandias was with a pair of pliers took the switch apart and regulated the voltage. No aviator would attempt to do this over a large city, he said, but since he saw perfect landing fields all around there appeared no danger if he did kill the engine while repairing it.

The ship is an army "Deland" with a "Deland" motor. The aviators left Mitchell Field, Long Island, on Saturday, and to Bismarck had covered 2,162 miles since Saturday. They will go on to the coast to San Francisco and then back east by the air mail route.

The lieutenants have had no landing problems. The aviators left Mitchell Field, Long Island, on Saturday, and to Bismarck had covered 2,162 miles since Saturday. They will go on to the coast to San Francisco and then back east by the air mail route.

**FORD'S BODY
LINES BETTER**

Many Fine Improvements Are
Made in Touring Car

Improved style, more graceful lines and a lower appearance, are outstanding features of the new Ford Touring Car.

These all have been effected through the higher radiator. The cowl has been enlarged and drops in a graceful sweep to meet the larger hood, giving the entire car body generally longer lines.

At the same time, the attractiveness of the one-man top and slanting windshield are enhanced.

The exterior appearance of the car is given a further touch of completeness by the new apron on the radiator which connects with fender skirts, bringing a highly finished appearance to the front. The new feature is standard on all Ford Passenger car types.

Another improvement resulting from the larger cowl is the increase in leg room afforded occupants of the front seat, making for more comfort in riding.

BRITISH WAR SURPLUS SOLD

**HARDING WILL
IS FILED**

Mrs. Harding Given Life
Estate in Much Property

(By the Associated Press.)

Morton O. Sept. 7.—The will of the late President Harding, filed for probate here today leaves to Mrs. Harding a life estate on \$100,000, the Harding home on Mount Vernon avenue, here and a half interest in the building owned by the Marion Star.

The total of the late President's estate, cannot be determined until appraisers report.

Upon the death of Mrs. Harding the \$100,000 life estate, mostly in government bonds and securities and interests bequeathed her, will go to the late President's brother, Dr. George T. Harding, Jr., of Columbus and to his sisters, Charity Bensberg, Abigail V. Harding and Mrs. Caroline Yates or to their heirs.

Mrs. Harding also was given all personal effects to dispose of as she saw fit.

Dr. George T. Harding, the aged father, was given a life estate of \$50,000 and the residence he lives in here.

NEW CAMISOLE

In order that overhauls may fit more snugly, the long-waisted camisole has made its appearance. It is 16 inches long and has narrow elastic at either side over the hip line.

Rickenbacker

A • CAR • WORTHY • OF • ITS • NAME

Effective, This Date—

Any Automobile Without 4-Wheel Brakes, is Obsolete!

Read every line of this ad—it contains good advice and a timely warning for all buyers!

On July first, Rickenbacker announced 4-Wheel Brakes on new models.

We stated then that this would prove "the greatest improvement since the advent of the Self-Starter—13 years ago."

That announcement created a sensation that shook the industry to its very foundations.

Reason for 4-Wheel Brakes is, necessity for greater safety in traffic—not only on city streets, but on the country roads.

Invention, always following closely in the wake of necessity, has produced a perfect system of brakes on all four wheels.

Even rival engineers proclaim this Rickenbacker 4-Wheel Brake "the most beautiful example of fine engineering that has ever graced a motor car—American or European."

Look at them. They tell their own story.

Already, two prominent makers have followed Rickenbacker leadership by announcing 4-Wheel Brakes! Others will follow.

Engineers in all other plants—(we repeat, "all other plants") are feverishly working to produce a workable 4-Wheel Brake system without infringing Rickenbacker design and certain European patents.

Rickenbacker showrooms are crowded all the time—so intense is the interest.

Factory swamped with orders.

Seems as if everyone wants a car with 4-Wheel Brakes and won't be happy till he gets it.

Meantime, those unfortunate salesmen of cars that do not have them are trying to explain why they "do not believe in 4-Wheel Brakes."

Here is a bit of information for all such.

We guarantee you that, within six months, every car, priced at \$1,000 and up, will announce 4-Wheel Brakes—or go out of business.

Won't be "out" by that time perhaps, but will be "on the toboggan" and headed downward.

4-Wheel Brakes have been accepted as the greatest safety insurance ever built into a motor car.

Get that—"Built in."

This is a mighty important point.

It's something you should insist upon when considering a car—that the brakes are built in—not tagged onto an old model.

Axles, front and rear, must be specially designed to insure that brakes function properly.

How will you know?

Tell you: when you see a set of "external contracting" brakes—that should be your warning.

For in most cases this is evidence that the maker suddenly realized that buyers now insist on 4-Wheel Brakes—and hastily tried to put them on the cheapest way—without re-designing his axles.

Can't be done.

We tried it. Tried every type of brake; and all fell short of the degree of perfection which Rickenbacker policy demands.

Listen!—of 81 makes of foreign cars, that are equipped with 4-Wheel Brakes, not one has external contracting brakes—not one.

And, so far as we know, only one is hydraulically operated. Only one!

Ask any salesman of cars having "external contracting" brakes these questions:

"Does a mechanism that is exposed to dust, rain, sand and gumbo, and in winter to ice—make a good brake?"

While you may equalize the pressure—can you equalize the effect?

Can you compensate for the fact that one is wet, the other dry; that one has a "sand" contact, the other of greasy mud, or gumbo?

Rickenbacker was designing 4-Wheel Brakes years before others even heard the term.

The first Rickenbacker chassis ever "laid on the drawing board" had brakes on all four wheels.

Had before us, the results of a decade of European engineering. Began where they left off.

And as a result of our research, our resources and engineering skill, we succeeded in producing a better system of brakes than any of them.

We challenge the world on that assertion.

Stand a Rickenbacker beside any European car—the one with the best brakes—and compare.

You will be as proud of this American achievement as we are.

Rickenbacker engineers tested every type of brake, and concluded that the internal, expanding type was the most dependable kind.

Rickenbacker 4-Wheel Brakes are fully enclosed and protected from rain, ice, and sand.

Rickenbacker 4-Wheel Brakes are the only brakes that function perfectly at all times, in all seasons, on all kinds of roads and under every conceivable condition of driving.

—the only 4-Wheel Brakes that act precisely the same when turning as on a straight-away.

—the only 4-Wheel Brakes that hold just as well when climbing up—or down—a mountain.

—the only 4-Wheel Brakes that cannot lock front wheels.

—the only 4-Wheel Brakes that always exert a greater pressure on rear than on front—and cannot be changed to do otherwise.

—the only 4-Wheel Brakes that are fool proof—both as to driving and adjustment.

—the only 4-Wheel Brakes that have no universals or toggle joints or exposed parts.

—the only 4-Wheel Brakes that cannot freeze or become ice-coated in winter.

—the only 4-Wheel Brakes that automatically lubricate themselves.

—the only 4-Wheel Brakes that do not grab, grip, or screech when suddenly applied.

—the only 4-Wheel Brakes that add to, rather than detract from, the appearance of the car.

—the only 4-Wheel Brakes that will not become loose and rattle after long wear.

—the only 4-Wheel Brakes that can be adjusted perfectly by one man.

—the only 4-Wheel Brakes that a ten-year-old boy can adjust as well as a skilled mechanic.

—the only 4-Wheel Brakes that have exactly the same braking power going backward as forward.

—the only system whereby front-wheel brakes can be used independently of the rear.

—the only system where the rear wheel brakes can be used 100 per cent independently of the 4-Wheel system.

In a word, this Rickenbacker Six is the only car on the world-market that has three independent braking systems, all of which operate just as successfully backward as forward—and individually as well as collectively.

Other makers will soon follow Rickenbacker by featuring 4-Wheel Brakes.

But—that alone will not put their product on a par with Rickenbacker.

There are several other outstanding features that you can still find only in this product.

For, Rickenbacker has contributed more engineering refinements to the industry in three years than have been developed by all other makers combined in the past ten.

The Vibrationless Motor—due to the two fly-wheels, was a Rickenbacker invention.

The Carbonless Motor—accomplished by the Automatic "Air Cleaner."

The Easiest Steering Car—due to Rickenbacker application of ball bearings in steering spindles.

The Vibrationless Body—due to the "Double Depth" frame invented by Rickenbacker.

The Most Luxurious Riding Car—due to Rickenbacker "Cradle" spring suspension.

So, when others do trail along with 4-Wheel Brakes, they will still be far behind Rickenbacker, the leader.

Salesmen of these obsolete cars will try to discount or discredit 4-Wheel Brakes. (They may be honest at that—for few of them know what the maker's plans are or when he intends to bring out 4-Wheel Brakes.)

So to protect yourself, use this plan!

Tell the salesman you want a signed statement from the head of the concern, asserting positively that his car will not have 4-Wheel Brakes within the next six months!

Insist on a written statement—don't accept the word of a man who does not know.

We will guarantee you now that not one leading maker will sign such a statement. Not one!

And if one did—it would prove he is hopelessly behind the times. 4-Wheel Brakes are here.

At least two makers have admitted that their engineers "have not yet succeeded in developing a perfect working set of 4-Wheel Brakes."

Too bad—better get another engineer!

The world won't wait for a laggard.

The world goes forward—never backward.

Makers may protest and argue and cuss—but they can't turn back the hands of the clock.

Rickenbacker showed the way—others must follow whether they want to or not.

We repeat—"Effective this date—any automobile without 4-Wheel Brakes is obsolete."

Just as obsolete as a car without a self-starter. Remember—you stop in half the distance that you do with ordinary 2-Wheel Brakes.

Ideal time for a demonstration of this is a rainy day and a "slippery-wet" asphalt pavement. Ten minutes at the wheel will be a revelation to you.

But don't delay. Demand is tremendous. Today—won't be a minute too soon.

RICKENBACKER MOTOR COMPANY, Detroit, Michigan

4-Wheel Brakes

TENNIS PLAY IS STARTED AT COUNTRY CLUB

Missouri Slope and Western
North Dakota Champion-
ship Contests Held

Play in the Missouri Slope and Western North Dakota tennis championship contests opened today on the courts of the Bismarck Town and Country club, and will be narrowed down to the finals tomorrow and Monday.

There is a fine field out for the contests. The entry list was announced today by Fred Page, in charge of the tournament, as follows:

M. L. Murphy, Jamestown; L. L. Lenz, Jamestown; J. C. Brinamand, Mandan; Elmer George, Mandan; R. Williams, Mandan; Fred Page, Bismarck; M. N. Hartz, Bismarck; N. L. Daffinrud, Bismarck; Newton Daffinrud, Hazen; F. P. Wernli, Hazen; Roy Seibert, Hazen; Mr. Diewlow, Hazen; R. Everhart, New Leipzig; O. D. Sprecher, New Leipzig.

L. Lillstrand, R. E. Morris, D. Cook, C. L. Robertson, Fred L. Page, all of Bismarck.

First Baptist Church

L. R. Johnson, Pastor.
Corner 4th St. and Ave. B.
10:30, Morning worship and sermon by the pastor, subject, "Can All Things Work Together For Good?" How can it be seen in such disasters as a World War, the death of a President, the great earthquake of Japan? 12:00, Sunday School. Teachers of the schools, visitors, strangers are cordially invited. All pupils and new ones will soon be in their place, we hope.

7:00, B. Y. P. U. A special business meeting will be held. Officers for the coming year will be elected.

8:00, Evening worship and sermon by the pastor.

8:00, A special business meeting of the church is called for Wednesday evening for the purpose of arranging the program for the year.

McCabe Methodist Episcopal Church

Dr. S. F. Halfyard, Pastor.
Professor Harry L. Wagner, Organist.
10:30 a. m. public worship.
Organ prelude.
Anthem, "I Waited For The Lord," by Mendelssohn, sung by Double Quartette.
Organ offertory.
Solo selected, by Mr. George Humphreys.
Sermon-theme: "Education, the Principal Thing." High school and college students, and leaders are specially invited to hear this sermon.
Organ postlude.
12:00 n. Sunday school.
Vacation days are over and it is hoped that the attendance of teachers and pupils will greatly increase. Be in your place tomorrow.

7:00 p. m. Epworth League.
A helpful service for young people. Topic: "From Vision to Task."
8:00 public worship.
Organ prelude.
Anthem by the Men's Chorus.
Organ offertory.
Sermon-theme: "What Christ Came To Do."
Organ postlude.
Come and bring a friend.

St. Georges Church

Rev. Dr. Ryerson, Rector.
15th Sunday after Trinity.
Early celebration of the Holy Communion at 8 a. m.
Sunday school 10 a. m.
Morning prayer and sermon 11 a. m. Subject, "The Creative Power of Mind."
The ladies of St. Georges church are invited by the Rector to meet at the church at 3 p. m. Thursday afternoon to consider plans for the coming year.

The first vestry meeting of the fall is called to meet Tuesday evening 7:30, at the Parish House.

The new method to reach the friends and members of the church here good results as shown by the fine congregation that greeted the Rector last Sunday morning.

Wanted: Every boy and girl of St. Georges in the class, tomorrow. Phone 308W.

EVANGELICAL CHURCH

Church, corner Seventh and Rosser Sts., C. E. Strutz, pastor.
German service from 9:30 to 10:30 a. m. All other services are held in English.
Bible school, 10:30 to 11:30 a. m. followed by a brief sermon on the topic, "The God of Another Chance."
Evangelical League of C. E. will have a very interesting post-vacation meeting in charge of the Christian Work Committee. Various members will tell about some of their experiences and the lessons they learned during vacation. There will be special music. Come! 7:15 p. m.
Evening sermon: "The Most Important Business of Life." 8 p. m. A cordial welcome to all.
Prayer service and Bible Study Tuesday evening 8 o'clock.

First Presbyterian Church

Rev. Harry C. Postlethwaite, D. D. Minister.
The pulpit until the first of the year will be supplied by Rev. Harper R. Burns, State President of Christian Endeavor Society, who will also be ready to render any pastoral services that may be required.

Morning worship at 10:30 a. m.
Sermon theme: "What Does It Mean To Be 'Born of the Spirit?'"
Special music.
Solo selected—Mrs. Frank Barnes. Duet—Mrs. Barnes and Mrs. Scott. "The Angelus"
Evening worship at 8 o'clock.
Special music by choir.
The second of a series of sermons on "The Christian."
Sermon theme: "How May I Know I Am a Christian?"
Christian Endeavor meeting at 7 o'clock.
Mr. Franco Crawford who has re-

cently returned will lead the society and will tell something of his trip to Egypt, the Holy Land and other countries of interest.

Juniata Bible School at 9:30 a. m. other departments at 12 o'clock.
A meeting of the officers and teachers of the Bible school will be held Monday evening at 7:30 p. m. in church parlors. Prayer meeting Wednesday evening at 8 o'clock. A very cordial welcome awaits you at all these services.

TRINITY LUTHERAN CHURCH

Corner Ave. C and 7th St.
Services Sunday morning and evening.
Morning topic: God or Mammon, which?
Evening: What is Moral Law?
Sunday School with new Bible class commences right after morning service.
Evening service still at 8 o'clock, but in 2 or 3 weeks the time will be 7:30.
All welcome.

CHRISTIAN SCIENCE SOCIETY

Corner 4th St. and Ave. C.
Sunday services at 11:00 A. M.
Subject: "Man."
Sunday School at 9:45 A. M.
Wednesday evening testimony meeting at 8 o'clock.
A reading room is open in the church building Tuesday, Thursday and Saturday except legal holidays, from 2 to 4 P. M.
All are welcome to attend these services and to visit the reading room.

First Lutheran Church

Seventh Street and Avenue D.
Morning services 10:30.
Sunday school at 12 noon.
Evening services at 8 o'clock.
All are cordially invited to attend these services.

UNITY SOUTH SIDE MISSION AND CHARITY SOCIETY

Regular services every Sunday at 10 o'clock a. m. in German. English services at 11 o'clock, by Rev. Alberty. Sunday school conducted by Miss Ingram. Please send your worn clothing and shoes, etc., to the Mission, 805 16th St. So., or call phone 557-J.

J. B. HAPPEL, Pastor.

J. B. ALSBURY, Asst. Pastor.

Oil Supply May Never Equal Demand

Washington, Sept. 8.—Despite government efforts in promoting the most efficient development of oil fields, it is becoming more and more evident that the country's oil production will probably never again catch up with the demand, according to a recent statement of the Bureau of Mines.

Domestic consumption increased from 281,000,000 barrels in 1914 to 586,000,000 barrels in 1922, the bureau's figures show, while production increased from 266,000,000 barrels to 552,000,000 in the same period. Imports increased to make up the deficit.

Bureau engineers have made extensive investigations of oil shale deposits in the Rocky Mountains and elsewhere, and declare a potential fuel supply of great importance exists in these deposits and some day will furnish the raw materials upon which producers must rely. Investigation is being continued to determine the most favorable conditions and methods for retorting oil from shale deposits.

Dancing! McKenzie Roof Garden

Tuesdays, Thursdays and Saturdays. 10c dances. Coolest spot in Bismarck.

House-Bargain

For Sale: Modern House of 9 rooms and bath, hot water heat. Cistern. Well located. Trees. Rental of rooms will pay for house. A bargain at \$5,000.—Cash only \$1,200.

For Sale: Small house of 6 rooms. Water and lights. Price \$1,650. Cash only \$250.

PRECINCT HAS ONLY 4 VOTERS

Smallest Precinct Disturbed
Over Scarcity of Election
Officials

St. Louis, Sept. 8.—A voting precinct in St. Louis County, with four perennial residents, is believed to have the smallest population of known qualified voters of any precinct in the United States.

The precinct is at Washington University, just west of St. Louis City, and the four residents are wondering how they can distribute themselves at elections to provide the necessary six precinct officials.

The quartet, however, takes comfort in the fact that some members of the faculty stay at the dormitories when the university is in session, and some of these may be qualified voters in St. Louis county.

Those who reside at the university throughout the year are Jake Reicher, a janitor, and his wife, and Moritz Boorstin, superintendent of buildings and grounds, and Mrs. Boorstin. Formerly they voted at the county courthouse at Clayton, but at the last session of the state legislature a law was passed providing for a board of election commissioners in St. Louis County. This law necessitated a redistricting of precincts, as it forbade the adjoining of municipal and rural, or unattached, territory in a precinct.

As Washington University is not in a municipality, but is surrounded by municipalities, it was necessary to make the grounds of the institution

a separate precinct. The unique precinct will be in operation for the first time Sept. 12-20, when a registration will be held in St. Louis County.

BURKE CO. SUES FUND

Asks \$77,000 From The State
Bonding Fund

Burke county has entered suit against the State Bonding Fund, for approximately \$77,000 because of county funds tied up through deposits made in banks in the county which have since closed.

Liability had been denied by the State Bonding Fund board, according to Harold Hopton, manager of the fund, because liability had not been definitely ascertained. Mr. Hopton declared belief that the fund would escape liability and asserted that the case was not similar to the Slope county case in which a judgment of \$50,000 and interest was obtained against the fund.

Slope county has entered suit against the Guaranty Fund Commission to recover \$61,771.88 which had been deposited in two closed banks in Amidon by treasurers of that county, it being understood that attorneys for the county would particularly press the claim that the com-

mission should pay the difference between the amount of the judgment obtained against the State Bonding Fund and the amount actually tied up in the closed banks. The Guaranty Fund Commission, it is understood, had denied liability.

DAKOTA BOYS AT ANNAPOLIS MAKE SQUAD

Four of the North Dakota boys at the United States Naval Academy have made the freshman football squad of 50, according to word received here. They are Jack Burke, and on the Bismarck football team last year; Cooper of Williston, Pitt-

morris of Dickinson and Eck of Hettinger. The squad was chosen from 600 candidates.

FARMER PIERCED BY PITCHFORK

Valentine, Neb., Sept. 8.—Albert Haugh, farmer residing near here, was killed yesterday when a pitchfork which had become caught in a three-cher belt was hurled with terrific force into his abdomen.

MEXICAN COURT FACES BUSY YEAR

Mexico City, Sept. 8.—The Supreme Court of Mexico has before it today no fewer than 18,000 cases. Hearings are being set as far in advance as the middle of 1924.

Get Your Coal Free

Special offer to Tribune readers. A large successful 16-year-old coal company, The Peoples Coal Company, 1220 W. 35th St., Dept. 519, Chicago, Ill., shipping direct from mine to user, is offering this unusual opportunity to one coal user in every neighborhood who has a few hours spare time each month. This is its method of quickly introducing the finest grade, freshly mined, free burning coal, which is being sold from mine direct to user, thereby saving the profits of all middle men. Men of good standing and well known in his community can get his coal free. We suggest that you write this firm today.—Adv.

Too Late To Classify

FOR RENT—A large attractive front room, nicely furnished, between hospital and high school, 517 7th St.

LOST—Liberal reward will be paid

for return of, or information leading to the return of, white collie male dog, with sable colored head, answering to "Lod" Frank G. Grambs, Bismarck, N. D. 9-8-2t

Dancing! McKenzie Roof Garden

Tuesdays, Thursdays and Saturdays. 10c dances. Coolest spot in Bismarck.

Dr. Halfyard will preach a sermon on Education tomorrow

10:30 a. m. Methodist Church, to High School and College Students, and to teachers.

SCHOOL DRESSES

Monograms in bright embroidery are woven into the navy blue dresses for school girls. Gay embroidery is also used on the white collars and cuffs.

Stop falling hair!

Money Back if It Doesn't VAN ESS

Scalp specialists will tell you the big problem with scalp ailments is to get the people to form a consistent habit of taking care of their hair.

Van Ess Liquid Scalp Massage comes in a patented bottle with a special rubber applicator attached. The method of application is easy—and clean. The treatment is fed through rubber nipples directly to the roots of the hair while the scalp is gently massaged. One minute a day with Van Ess stops falling hair, relieves itching scalp and grows new hair. Ask us about our 60-day guarantee.

Organ offertory.
Sermon-theme: "What Christ Came To Do."
Organ postlude.
Come and bring a friend.

St. Georges Church
Rev. Dr. Ryerson, Rector.
15th Sunday after Trinity.
Early celebration of the Holy Communion at 8 a. m.
Sunday school 10 a. m.
Morning prayer and sermon 11 a. m. Subject, "The Creative Power of Mind."

The ladies of St. Georges church are invited by the Rector to meet at the church at 3 p. m. Thursday afternoon to consider plans for the coming year.

The first Vestry meeting of the fall is called to meet Tuesday evening 7:30, at the Parish House.

The new method to reach the friends and members of the church here good results as shown by the fine congregation that greeted the Rector last Sunday morning.

Wanted—Every boy and girl of St. Georges in the class, tomorrow. Phone 308W.

EVANGELICAL CHURCH
Church, corner Seventh and Rosser Sts., C. E. Stetz, pastor.
German service from 9:30 to 10:30 a. m. All other services are held in English.
Bible school, 10:30 to 11:30 a. m., followed by a brief sermon on the topic: "The God of Another Chance."

Evangelical League of C. E. will have a very interesting post-vacation meeting in charge of the Christian Work Committee. Various members will tell about some of their experiences and the lessons they learned during vacation. There will be special music. Come! 7:15 p. m.

Evening sermon: "The Most Important Business of Life," 8 p. m. A cordial welcome to all.

Prayer service and Bible Study Tuesday evening 8 o'clock.

First Presbyterian Church
Rev. Harry C. Postlethwaite, D. D. Minister.
The pulpit until the first of the year will be supplied by Rev. Harper R. Burns, State President of Christian Endeavor Society, who will also be ready to render any pastoral services that may be required.

Morning worship at 10:30 a. m.
Sermon theme: "What Does It Mean To Be 'Born of the Spirit?'"
Special music.
Solo selected—Mrs. Frank Barnes. Duet—Mrs. Barnes and Mrs. Scott. "The Angelus."

Evening worship at 8 o'clock.
Special music by choir.
The second of a series of sermons on "The Christian."
Sermon theme: "How May I Know I Am a Christian?"
Christian Endeavor meeting at 7 o'clock.
Mr. Franz Crawford who has re-

cently returned will lead the society and will tell something of his trip to Egypt, The Holy Land and other countries of interest.

Junior Bible School at 9:30 a. m., other departments at 12 o'clock.

A meeting of the officers and teachers of the Bible school will be held Monday evening at 7:30 p. m. in church parlors. Prayer meeting Wednesday evening at 8 o'clock. A very cordial welcome awaits you at all these services.

TRINITY ENGLISH LUTHERAN CHURCH
Corner Ave. C and 7th St.
Services Sunday morning and evening.

Morning topic: God or Mammon, which?
Evening: What is Moral Law?
Sunday School with new Bible class commences right after morning service.

Evening service still at 8 o'clock, but in 2 or 3 weeks the time will be 7:30.

All welcome.

I. G. Monson, Pastor.

CHRISTIAN SCIENCE SOCIETY
Corner 4th St. and Ave. C.
Sunday service at 11:00 A. M.
Subject: "Man."
Sunday School at 9:45 A. M.
Wednesday evening testimony meeting at 8 o'clock.

A reading room is open in the church building every Tuesday, Thursday and Saturday except legal holidays, from 2 to 4 P. M.

All are welcome to attend these services and to visit the reading room.

First Lutheran Church
Seventh Street and Avenue D.
Morning services 10:30.
Sunday school at 12 noon.
Evening services at 8 o'clock.
All are cordially invited to attend these services.

Oil Supply May Never Equal Demand

Washington, Sept. 8.—Despite government efforts in promoting the most efficient development of oil fields, it is becoming more and more evident that the country's oil production will probably never again catch up with the demand, according to a recent statement of the Bureau of Mines.

Domestic consumption increased from 261,000,000 barrels in 1914 to 586,000,000 barrels in 1922, the bureau's figures show, while production increased from 266,000,000 barrels to 552,000,000 in the same period. Imports increased to make up the deficit.

Bureau engineers have made extensive investigations of oil shale deposits in the Rocky Mountains and elsewhere, and declare a potential fuel supply of great importance exists in these deposits and some day will furnish the raw materials upon which producers must rely. Investigation is being continued to determine the most favorable conditions and methods for retorting oil from shale deposits.

PRECINCT HAS ONLY 4 VOTERS

Smallest Precinct Disturbed
Over Scarcity of Election
Officials

St. Louis, Sept. 8.—A voting precinct in St. Louis County, with four perennial residents, is believed to have the smallest population of known qualified voters of any precinct in the United States.

The precinct is at Washington University, just west of St. Louis City, and the four residents are wondering how they can distribute themselves at elections to provide the necessary six precinct officials.

The quartet, however, takes comfort in the fact that some members of the faculty stay at the dormitories when the university is in session, and some of these may be qualified voters in St. Louis county.

Those who reside at the university throughout the year are Jake Reichert, a janitor, and his wife, and Morris Boorstin, superintendent of buildings and grounds, and Mrs. Boorstin. Formerly they voted at the county courthouse at Clayton, but at the last session of the state legislature a law was passed providing for a board of election commissioners in St. Louis County. This law necessitated a re-districting of precincts, as it forbids the adjoining of municipal and rural, or unattached, territory in a precinct.

As Washington University is not in a municipality, but is surrounded by municipalities, it was necessary to make the grounds of the institution

a separate precinct. The unique precinct will be in operation for the first time Sept. 18-20, when a registration will be held in St. Louis County.

BURKE CO. SUES FUND

Asks \$77,000 From The State
Bonding Fund

Burke county has entered suit against the State Bonding Fund for approximately \$77,000 because of county funds tied up through deposits made in banks in the county which have since closed.

Liability had been denied by the State Bonding Fund board, according to Harold Hopton, manager of the fund, because liability had not been definitely ascertained. Mr. Hopton declared belief that the fund would escape liability and asserted that the case was not similar to the Slope county case in which a judgment of \$60,000 and interest was obtained against the fund.

Slope county has entered suit against the Guaranty Fund Commission to recover \$61,771.38 which had been deposited in two closed banks in Amidon by treasurers of that county, it being understood that attorneys for the county would particularly press the claim that the com-

mission should pay the difference between the amount of the judgment obtained against the State Bonding Fund and the amount actually tied up in the closed banks. The Guaranty Fund Commission, it is understood, had denied liability.

The New

HIGH POWERED REO "SIXES"

The New 6-Cylinder Touring

\$1335

At Lansing Add Tax

DEVELOPED by nineteen years' experience, the 1924 line of Reo high-powered six-cylinder passenger cars more forcefully expresses the significance of Reo as "The Gold Standard of Values."

Greatly improved and oversized brakes with 15-inch drums and 2½-inch faces provide positive control; a simple, sure and safe design of time-tried goodness is assurance of continued efficiency.

Powered with the wonderful Reo 6-cylinder engine; nothing experimental nor untried. With intake valves in head and exhaust valves at side, positive lubrication and cooling systems and unusual accessibility, it provides dependable power for every driving condition.

Safety—reliability—comfort—economy—roadability—appearance,—on whatever factor motor car satisfaction is based, Reo dominates.

The rugged, powerful chassis is hung lower to the road for easier riding, greater safety and improved appearance. The double-frame mounting of power units,—long a distinctive Reo feature,—is maintained. So is the simple dual foot control.

Super strength marks the new rear axle, which combines the advantages of both the semi-floating and full floating types.

He Knows He's Important

The farmer is used to hearing farming referred to as "the chief industry of the country" and himself as "the backbone of the nation."

He knows all that; he knows he's important. So we won't go over that ground again; we'll just say now that we want him to look upon our officers as his friends; as folks who understand his problems, and who are in hearty sympathy with his plans and ambitions.

Bismarck, N. D.

Rickenbacker

A CAR WORTHY OF ITS NAME

Effective, This Date—

Any Automobile Without 4-Wheel Brakes, is Obsolete!

Read every line of this ad—it contains good advice and a timely warning for all buyers! On July first, Rickenbacker announced 4-Wheel Brakes on new models.

We stated then that this would prove "the greatest improvement since the advent of the Self-Starter—13 years ago."

That announcement created a sensation that shook the industry to its very foundations.

Reason for 4-Wheel Brakes is necessity for greater safety in traffic—not only on city streets, but on the country roads.

Invention, always following closely in the wake of necessity, has produced a perfect system of brakes on all four wheels.

Even rival engineers proclaim this Rickenbacker 4-Wheel Brake "the most beautiful example of fine engineering that has ever graced a motor car—American or European."

Look at them. They tell their own story.

Already, two prominent makers have followed Rickenbacker leadership by announcing 4-Wheel Brakes! Others will follow.

Engineers in all other plants—we repeat, "all other plants"—are feverishly working to produce a workable 4-Wheel Brake system without infringing Rickenbacker design and certain European patents.

Rickenbacker showrooms are crowded all the time—so intense is the interest.

Factory-swamped with orders.

Seems as if everyone wants a car with 4-Wheel Brakes and won't be happy till he gets it.

Meantime, those unfortunate salesmen of cars that do not have them are trying to explain why they "do not believe in 4-Wheel Brakes."

Here is a bit of information for all such.

We guarantee you that, within six months, every car, priced at \$1,000 and up, will announce 4-Wheel Brakes—or go out of business.

Won't be "out" by that time perhaps, but will be "on the toboggan" and headed downward.

4-Wheel Brakes have been accepted as the greatest safety insurance ever built into a motor car.

Get that—"Built in."

This is a mighty important point.

It's something you should insist upon when considering a car—that the brakes are built in—not tagged onto an old model.

Axles, front and rear, must be specially designed to insure that brakes function properly.

How will you know?

Tell you: when you see a set of "external contracting" brakes—that should be your warning.

For in most cases this is evidence that the maker suddenly realized that buyers now insist on 4-Wheel Brakes—and hastily tried to put them on the cheapest way—without re-designing his axles.

Can't be done.

We tried it. Tried every type of brake; and all fell short of the degree of perfection which Rickenbacker policy demands.

Listen!—of 81 makes of foreign cars, that are equipped with 4-Wheel Brakes, not one has external contracting brakes—not one.

And, so far as we know, only one is hydraulically operated. Only one!

Ask any salesman of cars having "external contracting" brakes these questions:

"Does a mechanism that is exposed to dust, rain, sand and gumbo, and in winter to ice—make a good brake?"

While you may equalize the pressure—can you equalize the effect?

Can you compensate for the fact that one is wet, the other dry; that one has a "sand" contact, the other of greasy mud, or gumbo?

Rickenbacker was designing 4-Wheel Brakes years before others even heard the term.

The first Rickenbacker chassis ever "laid on the drawing board" had brakes on all four wheels.

Had before us, the results of a decade of European engineering. Began where they left off.

And as a result of our research, our resources and engineering skill, we succeeded in producing a better system of brakes than any of them.

We challenge the world on that assertion.

Stand a Rickenbacker beside any European car—the one with the best brakes—and compare.

You will be as proud of this American achievement as we are.

Rickenbacker engineers tested every type of brake, and concluded that the internal, expanding type was the only reasonable kind.

Rickenbacker 4-Wheel Brakes are fully enclosed and protected from rain, ice, and sand.

Rickenbacker 4-Wheel Brakes are the only brakes that function perfectly at all times, in all seasons, on all kinds of roads and under every conceivable condition of driving.

—the only 4-Wheel Brakes that act precisely the same when turning as on a straight-away.

—the only 4-Wheel Brakes that hold just as well when climbing up—or down—a mountain.

—the only 4-Wheel Brakes that cannot lock front wheels.

—the only 4-Wheel Brakes that always exert a greater pressure on rear than on front—and cannot be changed to do otherwise.

—the only 4-Wheel Brakes that are fool proof—both as to driving and adjustment.

—the only 4-Wheel Brakes that have no universals or toggle joints or exposed parts.

—the only 4-Wheel Brakes that cannot freeze or become ice-coated in winter.

—the only 4-Wheel Brakes that automatically lubricate themselves.

—the only 4-Wheel Brakes that do not grab, grip, or screech when suddenly applied.

—the only 4-Wheel Brakes that add to, rather than detract from, the appearance of the car.

—the only 4-Wheel Brakes that will not become loose and rattle after long wear.

—the only 4-Wheel Brakes that can be adjusted perfectly by one man.

—the only 4-Wheel Brakes that a ten-year-old boy can adjust as well as a skilled mechanic.

—the only 4-Wheel Brakes that have exactly the same braking power going backward as forward.

—the only system whereby front-wheel brakes can be used independently of the rear.

—the only system where the rear wheel brakes can be used 100 per cent independently of the 4-Wheel system.

In a word, this Rickenbacker Six is the only car on the world-market that has three independent braking systems, all of which operate just as successfully backward as forward—and individually as well as collectively.

Other makers will soon follow Rickenbacker by featuring 4-Wheel Brakes.

But—that alone will not put their product on a par with Rickenbacker.

There are several other outstanding features that you can still find only in this product.

For, Rickenbacker has contributed more engineering refinements to the industry in three years than have been developed by all other makers combined in the past ten.

The Vibrationless Motor—due to the two flywheels, was a Rickenbacker invention.

The Carbonless Motor—accomplished by the Automatic "Air Cleaner."

The Easiest Steering Car—due to Rickenbacker application of ball bearings in steering knuckles.

The Vibrationless Body—due to the "Double Depth" frame invented by Rickenbacker.

The Most Luxurious Riding Car—due to Rickenbacker "Cradle" spring suspension.

So, when others do trail along with 4-Wheel Brakes, they will still be far behind Rickenbacker, the leader.

Salesmen of these obsolete cars will try to discount or discredit 4-Wheel Brakes. (They may be honest at that—for few of them know what the maker's plans are or when he intends to bring out 4-Wheel Brakes.)

So to protect yourself, use this plan!

Tell the salesman you want a signed statement from the head of the concern, asserting positively that his car will not have 4-Wheel Brakes within the next six months!

Insist on a written statement—don't accept the word of a man who does not know.

We will guarantee you now that not one leading maker will sign such a statement. Not one!

And if one did—it would prove he is hopelessly behind the times. 4-Wheel Brakes are here.

At least two makers have admitted that their engineers "have not yet succeeded in developing a perfect working set of 4-Wheel Brakes."

Too bad—better get another engineer!

The world won't wait for a laggard.

The world goes forward—never backward.

Makers may protest and argue and cuss—but they can't turn back the hands of the clock.

Rickenbacker showed the way—others must follow whether they want to or not.

We repeat—"Effective this date—any automobile without 4-Wheel Brakes is obsolete."

Just as obsolete as a car without a self-starter.

Remember—you stop in half the distance that you do with ordinary 2-Wheel Brakes.

Ideal time for a demonstration of this is a rainy day and a "slippery-wet" asphalt pavement.

Ten minutes at the wheel will be a revelation to you.

But don't delay. Demand is tremendous. Today—won't be a minute too soon.

RICKENBACKER MOTOR COMPANY, Detroit, Michigan

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SUPPORT THE CAUSE
Burleigh county's quota for the Japanese relief fund is only \$500. This should be subscribed in a few days by voluntary subscriptions. It should not be necessary to go out on a special drive for such a small sum.

The Red Cross chapter of this county has been doing efficient work without much noise or flutter. It maintains in conjunction with the Association of Commerce a social registration bureau where charity cases are listed, duplication eliminated and unworthy applications for funds denied.

Miss Mary Cashel, the welfare worker, has weeded out many chronic cases of mendicancy and has so reduced the demands to actual, worthy cases that there will be no need for a community chest drive.

The citizens of Burleigh should support the coming Red Cross roll call. Strange as it may seem a greater portion of the calls for poor relief come from points beyond the city limits.

Many sections of Burleigh county are cooperating with Bismarck Red Cross members and do efficient work. About \$4,000 will be needed to carry on the various phases of the Red Cross work next year. Much of this money is used to assist service men. Then there is the general welfare and health work which some agency must do if relief is to be speedy and efficient.

Next month the campaign for Red Cross funds will begin and there should be a ready response.

Support the Red Cross chapter in Burleigh. It is a branch of the greatest and most efficient society of its kind in the world.

FEDERAL AID

Opinions differ upon the value of various federal aid projects. Those jealous of state rights advance the argument that federal aid projects merely lead states into extravagant appropriations lured by the fact that the federal government will duplicate or match state appropriations for road, health and other kinds of work.

There is probably a modicum of truth and some force in this argument, but the system of federal aid should not be wholly condemned. Like any governmental project, federal aid as an inducement for state appropriation to carry on public health campaigns is to a great degree educational in character and has spurred many states neglectful of this work to greater endeavor.

Here in Burleigh county without federal aid the Bismarck-Mandan bridge might never have materialized; federal aid along agricultural lines which state legislatures have matched up to the millions has been employed to fight rust, bollweevil, and many other scourges that menace agriculture.

Before the federal government took up the various kinds of public welfare work many states were indifferent and to overcome this inertia, federal aid has been a powerful agent.

A sweeping or blanket indictment of federal aid projects cannot stand in the light of great accomplishments. Bureaus may have flourished and governmental overhead increased, but viewed impartially their increase has been insignificant in comparison to the multiplicity of commissions and boards in the various states which serve no legitimate governmental function.

Federal cooperation in the building of roads and bridges is a most admirable undertaking and has done much and will continue to do more in securing joint action on the part of the different states in linking up effectively the great highways of the nation.

This is a most legitimate function of government and so are many others, much more defensible than the state running a flour mill in competition with private capital and initiative.

COST OF LIVING

The cost of living is about three-fifths higher now than it was when the war started in 1914, according to National Industrial Conference Board. It figures on the basis of the requirements for the average American wage-earner with five in family.

In other words, it takes about \$1.60 to buy what cost \$1 in 1914. To counteract this situation, the average person should be getting an income three-fifths higher than before the war. Divide your income by 16, then multiply it by 10 and you'll have your present buying power in terms of the 1914 dollar, for comparison.

Most of us will consider the board's estimate (three-fifths rise in living costs) too conservative.

DIFFERENT NOW

England in the first six months this year bought about \$80 million dollars worth of goods from Germany, compared with 60 millions in the corresponding period of 1922. English exports to Germany increased similarly.

A few years ago the war-maddened English and Germans were swearing never again to trade with each other. Nations quickly bury the ax when they can see a profit in the burial. War and peace are interwoven with commerce. Free-traders had approvingly.

FREE SPEECH SAFETY VALVE

A committee of lawyers, reporting to the American Bar Association, is alarmed because it understands that there are a million and a half radicals in the United States.

This shouldn't alarm even an 1890-model mind. For, out of these 1,500,000 radicals, at least 1,450,000 of them don't want to do anything except talk.

Free speech is democracy's safety valve.

SUGAR HEADS IMPORTS

Sugar now heads the list of our imports from other countries. Raw silk formerly had the leadership. Americans are the champion sugar gluttons of the world. The rest on us nationally? Increase in diabetes, destruction of teeth and over-burdened digestion. Sugar is a stimulant.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

WHY THE PUBLIC IS IMPATIENT

Coal operators are said to have taken offense at Governor Pinchot's charge that "the whole body of wage rates in the anthracite field is a antiquated, haphazard, and honey-combed with inequalities, and needs revision." From reports of the United States coal commission it appears that the terms might well be applied to the industry in whole. Investigation after investigation has been made by congressional committees, and each has returned with the report that the entire industry is shot through with antiquated methods and wasteful practices for which the public must foot the bill. Yet nothing has been done about it.—Milwaukee Journal.

APPROVES DAIRY SHOW

The Bismarck Tribune is advocating the establishment of an annual corn and dairy show for Burleigh county. It is a timely suggestion, and of the Emmons county could well consider too. The ordinary county fair is a time-honored institution, but it has generally featured raising of wheat, even though other grains and products made up most of the entries. We have been having our stock shows for several years with the people of the Hazleton neighborhood hearing nearly all the burden. If the project was enlarged to embrace the entire county, and to feature corn production as well, we believe that an important step in the dairying and stock-raising industry would have been taken.

Wheat farming will break any county in the Missouri Slope, it isn't anything like a sure shot even in the Red River Valley. The corn and dairy business is our salvation, and an Emmons county corn and dairy show would do much to get the individual producers interested in that kind of farming.—Emmons County League.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

NANCY AND Nick stayed with Mister Gallop in his rocky cave when they were not traveling around with him on their ponies.

Each of them had a nice soft bed made out of smelly pine needles and covered by soft Indian blankets.

Each night when the Blackie and Echo, the three ponies, were out eating sweet grass, and the leaves of mountain daisies, which they dearly loved, their little master and mistress and the wee fairymen were dreaming fine dreams of new adventures.

One night, while they were sound asleep and dreaming dreams by the yard, something more real was happening.

"Tippy Trade Mouse neeped in. The cave was as dark as a fruit cellar because the moonlight and starlight couldn't leak in, but Tippy Trade Mouse's eyes were just made for the dark and he could see everything.

He sniffed at Mister Gallop's lasso and his high cowboy boots, and he sniffed at Nancy's clothes laid in a neat pile over a chair back, and he sniffed at the magic shoes standing in a neat row under the beds.

Then he came to Nick's clothes laid in a pile at the foot of his bed ready to jump into in the morning.

Tippy Trade Mouse jumped up and sniffed at Nick's clothes. "Ah, ha!" he said, winking his bright little eyes. "Here's the very thing I've been wanting!" And he took Nick's shirt in his teeth and dragged it out into the moonlight.

Then he set to work and chewed and chewed and chewed. "I mustn't make a hole!" he kept saying. "That wouldn't be nice of me at all! I mustn't make a hole. I'll have to be very careful."

After while he finished what he was doing, and dragged the shirt back again.

Then he went away, carrying something in his mouth.

And by and by he came back carrying something else in his mouth and laid it in the shirt.

This he did six times. Then he left for good.

"Oh, look!" cried Nick when he went to put his shirt on next morning. Somebody's cut all the buttons off my shirt and left six little stones instead."

"It's Tippy Trade Mouse, as sure as anything," said Mister Gallop. "He is always trading something for something else, and nobody knows what he wants it for."

(To Be Continued)
(Copyright, 1923, NEA Service, Inc.)

A Thought
Whatever thy hand findeth to do, do it with thy might; for there is no work, nor device, nor knowledge, nor wisdom, in the grave, whither thou goest.—Ecc. 9:10.

Toil, feel, think, hope; you will be sure to dream enough before you die, without arranging for it.—J. Sterling.

Turkey Thief of July Is Caught

Jamestown, N. D., Sept. 8.—Ed. Putnam, of near Courtenay, was given a suspended sentence of thirty days in jail this week by a city justice, when he pleaded guilty to stealing a flock of thirty-two young turkeys from a field last July, belonging to John Reck.

A neighbor, hearing of the theft, happened to remember seeing a man catching turkeys, and pointed them out to the justice.

The justice, after hearing the case, sentenced the thief to thirty days in jail, and the result was a fine for the field and the result was a fine for the field and the result was a fine for the field.

Wonder When Cal's Gonna Unpack This One

The Tangle

LETTER FROM LESLIE PRESCOTT TO ALICE HAMILTON, CONTINUED

When I reached the part of my letter where I was telling you about my Eden, Alice, dear, Jack became homesick and asked you to take him for a drive in my new car. It is a very lovely one and I am very proud of it, but more than all the rest I am proud of the fact that I am able to drive again without being nervous.

Mother tells me that Karl has brought you a string of real pearls. She asked me about it, dear, and I told her to let him buy them for you if he wanted to, because I know that he looked upon you just as his little sister and of course we both know he has so much money he doesn't know what to do with it. Sometimes it is more graceful to accept a gift than to refuse it.

I'll bet you they don't look as pretty as that string of beads you gave me. Sometimes I think it is all nonsense to buy real pearls when you can have imitations that look as well as these lovely ones of mine.

I do wish you would try and get me another string of them and also I wish you wouldn't be so mysterious about where you got them. I would like to give some to Beatrice Grimshaw for a wedding present. You remember I wrote you that I thought I would divide this string with her since it is such a long one. You made such a fuss about it that I decided not to. To tell the truth, I have grown so fond of them that I rather hated to do it anyway.

So you think Betty Stokley is going to fall in love with an Englishman, do you? Don't you do it, my dear, for when it comes time for you to get married there is no man who

is worthy of an American girl but an American.

Italians and French and Serbians, they tell me, make great lovers. I wasn't allowed to find out when I was in Paris.

When are you going back to London? Honestly, Alice, I think your scudding over to Paris, you and Betty, with only Karl for a chaperon, is exceedingly flapperish. I can't understand how Mrs. Stokley could let you do this. Now don't be angry for I haven't told mother what I thought of it at all and I don't think she would have let you have the pearls if I hadn't said I thought it was all right for you to accept them.

You say, Alice, dear, that you think a woman must love a man, a great deal to bear him children. Well, I love Jack so much that when even mother asked me to go over with her to England this fall, when she went to bring you home, I declined. I just couldn't leave my husband and my baby.

I don't want you to stay over there later than October, for I intend to have Junior baptized on Thanksgiving Day, and you and Sydney Carton are to be godmother and godfather.

Lots of love, my dear, and I hope you are as happy in England seeing all the sights as I am over here with Jack sitting on the arm of my chair and my baby's head snuggling up close against my bosom.

LESLIE.

PAINFUL ACCIDENT.
Wilton, N. D., Sept. 8.—Marl White suffered a painful accident this week when he was crushed between two horses and nearly smothered. He has recovered.

EVERETT TRUE BY CONDO

HEY! WHAT'S THE IDEAR?

THIS 'IDEAR' IS THAT IF YOU WANT TO PARK YOUR BOAT IN HERE, DON'T STRADDLE THE SPACE MARKED FOR TWO CARS!!!

Even basketball is dangerous. In New York, a girl's cheering a player led to marriage.

Chicago woman lost a \$14,000 necklace in Paris. Could have lost more than that at home.

Wisconsin farmer found dynamite in oats. Suppose he had fed the horse and kicked him?

About 9000 patents are sought monthly and pickle bottles as hard to open as ever.

About twenty million pieces of mail reach the dead letter office yearly, none bills.

There would be a peach shortage if you didn't have to peel them.

Somebody is always favoring a drastic change in something.

Blessings of Citizenship

By F. E. Schortmeier
I am an American.
I am protected in my rights and encouraged in my possibilities.
I live under the first stable government known to man, which neither the passions of the many nor the whims of the few may destroy.
I may worship God as my conscience impels.
I may say or write whatever I think so long as I do not plot to overthrow, by force, the very power which gives me this vast opportunity.
I am protected against bodily harm.
I am secure in my worldly goods and no power can take them from me.

Northwest News

N. D. Man Makes Record Non-Stop Airplane Flight

La Moure, Sept. 8.—With long distance air flights records falling in amazing succession, it remained for a North Dakotan, Lieut. Harrison C. Crocker, of the United States army air service, son of Mr. and Mrs. W. G. Crocker of Lisbon, to make what is said to be the longest one-man non-stop airplane flight.

Taking off from Ellington field, Houston, Texas, Lieutenant Crocker circled over the waters of the Gulf of Mexico, and then flew 1,155 miles to the Canadian border near Detroit, Mich., in 11 hours and 29 minutes.

He used a plane fitted with a Detroit built 400 horsepower Liberty motor, and carried 240 gallons of gasoline with a 28 gallon reserve. In sight of the border he had to draw upon the reserve supply. At times he flew above the cloud banks 5,000 feet thick and for about 800 miles flew only about 100 to 500 feet above the ground. He passed through 29 thunder and rain storms.

New Pastime in Jamestown For Pre-Season Hunting

Jamestown, Sept. 8.—The Pied Piper of Hamelin has nothing on the enthusiastic hunters of Jamestown, who cannot wait for the hunting season to open, for there are hundreds of big rats infesting a dump pile near the city, and the hunters have chosen this as their pre-season hunting ground. The "hunters" drive up to the rubbish heap with their lights on, and suddenly turning them on, take aim and shoot before the rodents have a chance to run.

I. W. W. Men Forced Off N. P. Freight

Carrington, N. D., Sept. 8.—The unfounded assumption that railroad men have in the past helped the I. W. W. to enforce their red card law as a permit for box car riding, received another jolt when a conductor on an N. P. freight train not only compelled them to share the company of three or four "rejects" that they contemplated kicking off as they did not carry the usual permit, but also notified the officers at Melville, the next station, to be on hand to run them in.

No nobly, however, was present when the train arrived at that point.

Moorhead Teacher To Iowa College

Moorhead, Minn., Sept. 8.—Dr. Homer B. Reed, professor of psychology at the Moorhead State Teachers college for the past year leaves the last of this week for Grinnell, Ia., where he was recently elected to the head of the department of education and psychology.

Dr. Reed received his Ph. D. degree from the University of Chicago and since then has been professor at the Colorado State Teachers college, at Greeley, Col., and dean of the School of Education at University of Idaho, and has written articles and some research work in his field that have brought him wide recognition.

Seven Ohioans held a picnic up in a balloon, which is one way to keep things out of the lurch.

First, frost reported in New York. That place claims everything.

Detroit robber was a college graduate, but they caught him.

Los Angeles girls wear men's trousers. Girls will be boys.

Vollva thinks the earth is flat. It says the sun doesn't rise. He should get up earlier.

Man in Santa Rosa, Calif., cursed a telephone. Fined \$10. Probably worth \$20 to him.

Girl of 11 swam the Mississippi. Not long ago girls of that age couldn't even spell it.

Michigan man's auto tag was 15 years old. New things don't last like the old ones did.

Even basketball is dangerous. In New York, a girl's cheering a player led to marriage.

Chicago woman lost a \$14,000 necklace in Paris. Could have lost more than that at home.

Wisconsin farmer found dynamite in oats. Suppose he had fed the horse and kicked him?

About 9000 patents are sought monthly and pickle bottles as hard to open as ever.

About twenty million pieces of mail reach the dead letter office yearly, none bills.

There would be a peach shortage if you didn't have to peel them.

Somebody is always favoring a drastic change in something.

A PROCLAMATION

WHEREAS, The Constitution of the United States of America was adopted on the seventeenth day of September, 1787, and

WHEREAS, The government of the United States of America since that time has been and is today the one created by the people of the United States by its own terms purports to be, and is, the Constitution of the people of the United States of America and constitutes the fundamental law of the land, safeguarding to each individual citizen inalienable rights against infringement even by the government itself, and

WHEREAS, All accomplishments of the nation have been made possible by and under the provisions contained in that constitution, and

WHEREAS, The fundamental idea on which the American government as established by the Constitution is based, is that the will of the people when expressed in the manner prescribed by the people in the Constitution itself, shall be and is the law of the land, and inasmuch as the will of the people so expressed is the voice of the sovereign and it is manifest that in the long run there can be no government more capable, more patriotic, more intelligent, than the sovereign itself, it is highly essential that every American citizen and those about to become citizens should be familiar with the fundamental law of the land, the rights safeguarded and the duties imposed upon each citizen thereby, and

WHEREAS, Those who have carefully considered this immortal document agree with James Bryce when he says that it:

"Ranks above every other written constitution for the intrinsic people, the simplicity, brevity and precision of its language, and the excellence of its scheme, its adaptation to the circumstances of the judicious mixture of definition in principle with elasticity in detail," and

WHEREAS, The National Society of the Sons of the American Revolution has requested that the seventeenth day of September be designated as Constitution Day and that the whole week be set aside for the special purpose of studying the Constitution and its influence in moulding our national life.

NOW, THEREFORE, I, R. A. Nestos, Governor of the State of North Dakota, do hereby designate

September 17, 1923

as

CONSTITUTION DAY

and urge that during the week beginning September 16th the Constitution be read and carefully considered in our schools and colleges, and at all public meetings in our state, and that, as a people, we devote that week to a more thorough study of the history, contents, interpretation, and value of our fundamental law.

Given under my hand and the Great Seal of the State of North Dakota at the capitol at Bismarck, this 7th day of September, A. D. 1923.

(SEAL) R. A. NESTOS, Governor.

THOMAS HALL, Secretary of State.

Upham Girl Wins Scholarship; Will Study in France

Upham, Sept. 8.—Miss Myrtle Mott of Upham, N. D., one of the 12 students from the United States who will study in France this year, under the direction of the International Education Institute, is now in New York and will sail for France on the steamship Suffern, on Sept. 18, for Paris. She will study at the Ecole Normale de Saint Germain en Laye, located 16 miles from Paris, for the year. This school is considered one of the best in France.

The awards were based on the character, ability and personality of the students. Miss Mott was graduated from the University of North Dakota last June.

Graduate of Velva High May Enter Olympic Games

Velva, Sept. 8.—Verne Booth, who spent the summer vacation at the home of his parents in Sawyer, returned east Wednesday. Mr. Booth is the world's greatest long distance runner. He is a student at John Hopkins university and will graduate from institution next year.

From now until the university opens in October Mr. Booth will devote his time to running. In Chicago he will take part in the National Championship Track and Field Meet, running in the five mile event. Two weeks from now he will take part in the Pre-Olympic Track and Field Meet in New York, running in the 5,000 and 10,000 meter events.

Mr. Booth will undoubtedly be a member of the American team which will take part in the world's Olympic games in Europe next year. He is looked upon in the past as the greatest distance runner of the present time. He is a graduate of the Velva high school.

Stolen Car Is Recovered in Minot

Jamestown, Sept. 8.—Sheriff Ross' office received a telegram informing him that the Cadillac car stolen here last Thursday night from Ben Orady has been picked up at Plentywood, Mont. Two men were arrested there with it and a third escaped the authorities. The sheriff received a message yesterday asking for more information than his postal card notice of the theft had contained and on receipt of this information from him, Montana authorities made the arrests.

Plentywood is the county seat of Sheridan county, in northeastern Montana. County Attorney Chase is preparing requisition papers for the return to this state of the prisoners.

Car Goes Over Bank; 3 Injured

Cassellton, N. D., Sept. 8.—Mrs. Horace Clark, of Wheatland, Mrs. Peterson, of New Rockford and Miss Margaret Grobe, of Jamestown, were injured in an auto accident near Arkansas Tuesday night, when the car in which they were riding went over a twenty-foot embankment. Mrs. Peterson, who was driving, lost control of the steering wheel when the car struck a deep rut in the road.

without fair compensation and the due process of just laws.

If I am accused of wrong doing, 12 of my peers, reasonable and without interest will judge of my guilt or innocence. I pay the penalty only for my own acts and not for those of my blood. I am held blameless until I am proved responsible.

If I make a just contract, no power can overset it.

I may secure an education free, merely for the seeking and my self-improvement depends entirely upon my own diligence. The treasures of the ages await me at free libraries, if I will but seek them.

I can live with my loved ones, in peace if I choose and in sufficiency, if I will.

I have the unrestricted opportunity to work. I shall merit as I am worthy. My achievements are limited only by my own personal limitations, and except for myself, I am unlimited.

Opportunity awaits for me with the rising sun, anew, each morn. What I shall do with the day is for me, alone, to say.

Wherever I may go on the face of the globe, I am safely guarded by the folds of the American flag.

For this I pay nothing, except a mere tax pittance. All this is free to me, an American.

Good and true men and women before I came had prepared the way for me through hardship and sacrifice and death.

Even if I would, I can not say, "My curse runneth over." I can only safeguard, conserve, foster and honor that which was given to me.

I am free, to think and to do. I am an American!

Social and Personal

Mrs. Quain Gives Dinner For Pioneer Women of Bismarck

Mrs. E. P. Quain entertained at a 6 o'clock dinner yesterday evening in honor of a group of pioneer women of Bismarck, a number of whom are leaving in the near future for the winter months. Covers were laid for 19 guests, including Mrs. O. E. Barnes and daughter, Miss Ethel who leaves tomorrow for Washington, D. C. Mrs. Donnelly Taylor who left today for California, for the winter; and Mrs. E. J. McCullough of Minneapolis, Minn., a former resident who is the guest of Mrs. John Whalen, who will leave soon for her home. Roses were used on the tables for decorations. After dinner the guests visited and enjoyed music. Mrs. Anna Barnes gave a number of instrumental selections during the evening while a group of the ladies joined in dancing the Virginia reel.

Honor Miss Cochran With Garden Party

Miss Isabelle Cochran was an honor guest at a garden party given by the sales force of Webb Bros., at the home of Mrs. Arthur Sakariassen of Mandan, formerly Miss Clara Spitzer, yesterday evening. A number of Japanese lanterns turned the lawn into a pretty evening scene for the gathering. Music and games were played during the evening while the telling of fortunes by a trained card reader proved one of the most entertaining and delightful features of the evening. Marshmallows were toasted over a bonfire and a three course luncheon served, covers being laid for 24. The honor guest who leaves in the near future to begin dramatic work in Kansas City, was presented with a traveling bag by her friends.

Appoint Committees At D.A.R. Luncheon

At the opening meeting of the daughters of the American Revolution yesterday at a noon day luncheon at the McKensie hotel various committees were appointed by Mrs. F. L. Conklin, president, for the coming year.

Mrs. N. O. Remstad was made chairman of the Remstad Cabin committee. She will be assisted by Mrs. B. E. Steels, and Mrs. Philip Meyer. This committee expects to complete the work of repairing the cabin for future generations. Much of this work has already been accomplished by the committee in charge last year. Members of the membership committee include: Mrs. E. K. Thorberg, chairman, Mrs. A. M. Christianson, and Mrs. W. W. Johnson. During the luncheon Gov. E. A. Norstrom spoke on the Constitutional convention as a result of which the United States has its present constitution. He pointed out that the document had a particular significance to the members of the D. A. R.—their fathers have fought for the rights expressed in it. The Constitution Week observance which will be held in Bismarck Sept. 15-22 was also mentioned in this connection. It was urged that the D. A. R. use their influence in making this observance which it should.

SPEAKS AT ENDEAVOR. Franco Crawford, son of Mr. and Mrs. Lewis F. Crawford, who has just recently returned from England, where he had been attending Oxford university, will speak at the regular meeting of the Presbyterian Christian Endeavor society, Sunday evening, Sept. 9, at 7 o'clock.

His subject will be the story of his travels in the Holy Land, where he spent his vacation the summer of 1922. Everybody interested, both old and young, are most cordially invited to come and hear him. This is a rare opportunity to get the story of this experience first hand and from a young man.

NURSE VISITS HERE. Miss Rhoda Garzake of Alexandria, Minn., a graduate of the Bismarck hospital, who has been visiting with friends here for several days, left this morning for her home. Since graduating from the hospital training class Miss Garzake has been engaged in nursing in Grand Forks.

U. C. T. MEETING. A meeting of the U. C. T. will be held tonight at 8:30 o'clock at Elks hall. All members are invited to attend, since ladies of the Auxiliary will have charge. All visiting U. C. T. are invited to attend.

ENTERTAINS AT BRIDGE. Miss Marion Quain entertained at bridge this afternoon complimentary to a group of her classmates who are leaving in a short time for various colleges and universities. Four tables were in play.

RETURN FROM VACATION. Dr. and Mrs. S. J. S. and Miss Aldyth Ward have returned from a vacation trip to Parkers Prairie, Minn., and the lake region of the Twin Cities. They made the trip by automobile.

ENROUTE TO HAZEN. Misses Anna and Amanda Aggola of Jamestown visited in the capital city yesterday. Miss Anna left this morning for Hazen where she will teach while Miss Amanda returned to her home.

SCOUTS MEET. Troop No. 6 of the Presbyterian Boy Scouts had a 6:30 o'clock dinner at the Annex Cafe yesterday evening. Places were laid for 10. The boys considered plans for the winter season.

SENIOR CLASSES ORGANIZES. The senior class of the high school met yesterday to organize and select officers for the year. George Knowles was elected president of the class; Gwendolyn Jones, vice president; Waldo Elksdon, secretary; Kenneth Preston, ed-

FOR EVENING WEAR

METAL cloth promises a great vogue for evening wear in Paris this coming season, but is not expected to be popular at the expense of brocades or embroideries. The embroideries are becoming Chinese and Indo-Chinese now—Egyptian patterns are quite forgotten. Embroideries may be of beads, too, and it is quite the thing to have

one's gown beaded in jewel-like designs. Satin and taffeta are the materials chosen for young girls' evening and dancing dresses. They may be embroidered or ruffled trimmed. Ribbon is used to decorate them in every possible fashion—as flowers, roses, ruffles and sashes. Of the gowns sketched, one is of silver cloth beaded with rhinestones, the next of ruffled satin, the third of brocade and satin combined.

MACLEODS RETURN FROM CANADA. Mr. and Mrs. J. J. MacLeod and daughters Misses Jean and Mary have returned from a vacation trip to Toronto and Hamilton, Canada.

While in Toronto visiting with relatives and old friends Mr. MacLeod conferred with boys' workers of the Y. M. C. A. They made the trip by automobile, returning last evening.

COUNTRY CLUB TEA. The last Country club tea of the season will be given Tuesday afternoon. In charge will be Mrs. F. A. Knowles, chairman, Mrs. K. K. Kjelstrup, Mrs. P. C. Remington, Mrs. F. R. Smyth and Mrs. Benton Baker. All members are invited to attend and make the last affair a success.

ENTERTAINS AT DINNER. Miss Rose Huber entertained a group of friends at dinner yesterday evening at her home in honor of Misses Stassia Goreski and Eliza Barr who leave tomorrow for Seattle, Wash., to make their future home.

COUNTRY CLUB DINNER. Misses Minnie J. and Hazel Nielson were hostesses at a dinner at the country club yesterday evening.

ENTERTAIN AT DINNER. Mr. and Mrs. E. J. Taylor will entertain at dinner this evening in honor of their son, Edwin, who is home on leave from Annapolis Naval academy. Covers will be laid for sixteen.

INJURED AT PLAY. Tony, son of Mike Schneider, section foreman on the Soo railroad, is in the St. Alexius hospital for treatment as a result of injuries sustained yesterday while at play.

COUNTRY CLUB DANCE. About 50 couples enjoyed the dance at the Country club yesterday evening. The McKensie orchestra furnished special music for the occasion.

CATHOLIC DAUGHTERS. A meeting of the Catholic Daughters of America will be held Monday evening at 8 o'clock at St. Mary's school auditorium.

VISITING SON. Mrs. R. L. Perry of Valley City is spending the week and as the guest of her son and daughter in law, Dr. and Mrs. H. T. Perry.

BACK FROM VACATION. Mr. and Mrs. O. W. Roberts are expected to return Monday from a vacation trip through the South Dakota Black Hills.

Miss Gertrude Jennings is leaving for Washburn by car Sunday morning, when she is going to teach school this term.

STOPS OVER. Miss Edna Jones of Grafton stopped over here for a short visit with friends on her way to Hazen where she will teach.

CITY SHOPPER. Mrs. W. L. Staley of Hazen is spending a few days in the city shopping.

CITY VISITORS. Mr. and Mrs. E. A. Armstrong of Hazen visited and shopped here today.

Mrs. Montleth of Hazelton stopped over in Bismarck yesterday on her way home after visiting in Montana. E. C. Andrum of Beulah, and L. E. Drewkracht of Golden Valley, were among the city visitors.

Beulah Lignite Coal is Best. \$4.75 per ton. Order now. Washburn Transfer Co. Phone 62.

MAKE FIFTY RESERVATIONS

Red Cross Roll Call Luncheon Promises Snappy Meeting

Fifty reservations have already been made for the luncheon to be given at the Country club Monday noon when the Red Cross Roll Call and the question of Japanese relief will be discussed by Red Cross officials, the executive board, and various chairman and committees. A. L. Schaefer, director of the Junior Red Cross work of the state, Walter Wesselsus, field director of the Red Cross for North Dakota, Miss Minnie J. Nielson, state superintendent, Father Slag, will speak and reports from the chairman of the six counties included in this district will be given. The discussions and reports will be short and snappy. It is expected at this time to schedule final arrangements for the Roll Call drive which takes place, Oct. 1-15 and to decide upon any steps necessary in the Japanese relief situation.

FR. BERNARD IN HOSPITAL

Father Bernard of St. Yates, one of the best known men in the reservation country, is recovering from an operation in St. Alexius hospital. While Father Bernard has improved his condition is still said to be serious.

Trade Unions Thank Citizens

At a meeting of the Bismarck Trades Labor Assembly at its last regular meeting, Sept. 6 by a unanimous vote of all delegates present thanked St. Mary's School band, the business men of the city, the Press, and all the citizens who helped in such a generous manner to make the Labor Day Celebration a success.

Playgrounds Close For Season Now

With the closing of the playgrounds for the season, the following letter of appreciation has been sent to the Tribune in behalf of the children who enjoyed the playgrounds:

"The children of Bismarck wish to thank the Community Council for making the playgrounds possible for the children of Bismarck in the first place, the Association of Committees for the sand boxes, and their splendid co-operation throughout; the Rotary club, Mrs. George D. Mann for the balls, bats and volley balls, and the highway commission for the sand furnished. Especially do they thank all the volunteer workers who have given freely of their time."

AT THE MOVIES

THE ELTINGE. Theodore Roberts without his evening cigar! We find him thus in the Paramount picture, "Grumpy," which comes to the Eltinge Theatre Monday and Tuesday.

There is deep mystery and mischief in the production. Mr. Roberts fits the title role to perfection. May McAvoy and Conrad Nagel are featured players, while the heavy role is in the hands of Casson Ferguson. The remainder of the big parts in the picture are played by Bertram Johns, Charles Ogle, Robert Bolder, Charles French and Bernice Frank.

CAPITOL. A powerful dramatic situation that calls for all of Henry B. Walthall's power of vivid dramatic pantomime is portrayed in the new Fox special, "The Face on the Barroom Floor," which comes to the Capitol theatre next Monday.

Walthall, as the leading man in the production, plays the part of an artist who is "framed" and sent to prison. He escapes during a jail break and jumps into the sea, swimming to a neighboring lighthouse. There he finds one of the keepers dead and the other ill of influenza. He rushes into the breach, takes care of the light, and saves a ship in distress. He wins a pardon through his heroic behavior.

VISITING SON. Mrs. R. L. Perry of Valley City is spending the week and as the guest of her son and daughter in law, Dr. and Mrs. H. T. Perry.

BACK FROM VACATION. Mr. and Mrs. O. W. Roberts are expected to return Monday from a vacation trip through the South Dakota Black Hills.

Miss Gertrude Jennings is leaving for Washburn by car Sunday morning, when she is going to teach school this term.

STOPS OVER. Miss Edna Jones of Grafton stopped over here for a short visit with friends on her way to Hazen where she will teach.

CITY SHOPPER. Mrs. W. L. Staley of Hazen is spending a few days in the city shopping.

CITY VISITORS. Mr. and Mrs. E. A. Armstrong of Hazen visited and shopped here today.

Mrs. Montleth of Hazelton stopped over in Bismarck yesterday on her way home after visiting in Montana. E. C. Andrum of Beulah, and L. E. Drewkracht of Golden Valley, were among the city visitors.

Beulah Lignite Coal is Best. \$4.75 per ton. Order now. Washburn Transfer Co. Phone 62.

Coat and Cape Combination Is Full of Style

With all the dashing style of a cape and all the snug comfort of a coat—the "Coat with a Cape" is here to satisfy every demand for fall and winter. The cape back reaches well below the waist. The double collar almost covers one's chin. The smart side closing may be marked by long ties or a buckle. Silk or metal embroidery or braid is used for the borders of trimming.

Parent: Does your child need extra help in either HIGH SCHOOL or GRADE SCHOOL SUBJECTS? I am now organizing classes to give such aid. Martha Becker Gale. Box 515. Phone 291.

Dancing! McKensie Roof Garden — Tuesdays, Thursdays and Saturdays. 10c dances. Coolest spot in Bismarck.

NO JOB-HUNTING FOR THESE BOYS

Theo. E. Baier and V. M. Parano began to "cash in" on their course at Dakota Business College, Fargo, N. D., the very day they graduated. The former was immediately placed with the First National Bank of Goodrich, the latter with the Standard Oil Co., (the 131st D. B. C. student employed by this one firm.)

Consider the advantage of attending a college whose students are in constant demand by reputable firms. Nearly 700 banks employ D. B. C. graduates. "Follow the Successful" NOW. Write F. L. Watkins, Pres., 805 Front St., Fargo, N. D.

MEMORY IS GOOD But a Photograph is Better.

The Kiddies first days of school are Just as Sweet Memories as are their graduating days.

WHY NOT HAVE PHOTOGRAPHS of them as they first started to school?

We specialize in Children's Photographs.

BUTLER STUDIO

ROBERTSON'S HAY FEVER CURE

Robertson has done something for the Hay Fever patients. There is no sprayer or nasal douche to buy, or disagreeable operation.

You apply as directed. Very simple and easy to understand. Directions come with each bottle. It does not make any difference when you start to take the cure, it is relief immediately.

Price \$2.50. W. B. ROBERTSON, Mandan, N. Dak.

CITY NEWS

Parents of Boy. Mr. and Mrs. G. W. Jennings of the city are the parents of a son born at the Bismarck hospital.

May Fly Here. The Washburn baseball team may play the prison team here tomorrow at the prison. The game was scheduled and presumably the Washburn players will be here.

Fire Destroys Stack. Fire originating from lightning burned a six-ton hay stack, on the Twin Butte farm of Schipfer and Lambert south of the city Wednesday, according to word brought in by neighbors today. Another stack of equal size was close by. Neighbors turned out en masse to fight the fire and succeeded in saving the other stack.

Bismarck Hospital. Mrs. R. C. Pravaia, Wilton; Frayne Krause, Hazen; Georgia Johnson, Washburn; Charles Anderson, Stearns; Mrs. Margaret Anna Lee, city, and Miss Anna Bluedan, city, have been admitted to the hospital for treatment. Fred Kleingartner, Free-

donia, Miss Lillian Anderson, Wilton; Master Donald Waitman, Yocum; Lee Deweskracht, Golden Valley, and Mrs. C. V. Hook, Bowman, have been discharged from the hospital.

St. Alexius Hospital. Master Donald Fallgatter, Kintyre; Baby Gertrude Halder, Master Thomas Schneider, city; Baby Richard Johnson, Zap; Mrs. C. F. Hannan, Stanton; Viola Barth, Arena, and Mrs. Frank Montgomery have entered the St. Alexius hospital for treatment. Miss Florence Weaver, city; Master Martin Dittus, Elgin; Erich Englebreton, Regan; Miss Kathleen Begier, Wilton; Simon Sasse, Golden Valley, and Master Gideon Helms, Artes, S. D. have been discharged from the hospital.

Social and Personal

Mrs. Quain Gives Dinner For Pioneer Women of Bismarck

Mrs. E. P. Quain entertained at a 6 o'clock dinner yesterday evening in honor of a group of pioneer women of Bismarck, a number of whom are leaving in the near future for the winter months. Covers were laid for 19 guests, including Mrs. O. R. Barnes and daughter, Miss Ethel who leave tomorrow for Washington, D. C., Mrs. Donnelly Taylor who left today for California, for the winter; and Mrs. E. J. McCullough of Minneapolis, Minn., a former resident who is the guest of Mrs. John Whalen, who will leave soon for her home.

Roses were used on the tables for decorations. After dinner the guests visited and enjoyed music. Mrs. Anna Barnes gave a number of instrumental selections during the evening while a group of the ladies joined in dancing the Virginia reel.

Honor Miss Cochran With Garden Party

Miss Isabelle Cochran was an honor guest at a garden party given by the sales force of Webb Bros., at the home of Mrs. Arthur Sakariassen of Mandan, formerly Miss Clara Spitzer, yesterday evening. A number of Japanese lanterns turned the lawn into a pretty evening scene for the gathering. Music and games were played during the evening while the telling of fortunes by a trained card reader proved one of the most entertaining and delightful features of the evening. Marshmallows were toasted over a bonfire and a three course luncheon served, covers being laid for 24.

The honor guest who leaves in the near future to begin dramatic work in Kansas City, was presented with a traveling bag by her friends.

Appoint Committees At D.A.R. Luncheon

At the opening meeting of the daughters of the American Revolution yesterday at a noon day luncheon at the McKenzie hotel various committees were appointed by Mrs. F. L. Conklin, president, for the coming year.

Mrs. N. O. Ramstad was made chairman of the Roosevelt Cabin committee. She will be assisted by Mrs. B. K. Skeels, and Mrs. Philip Meyer. This committee expects to complete the work of repairing the cabin for future generations. Much of this work has already been accomplished by the committee in charge last year.

Members of the membership committee include: Mrs. E. A. Thorberg, chairman, Mrs. M. A. Christianson, and Mrs. W. W. Moyer.

During the luncheon Gov. R. A. Nestos spoke on the Constitutional convention as a result of which the United States has its present constitution. He pointed out that the document had a particular significance to the members of the D. A. R.—their fathers have fought for the rights expressed in it. The Constitution held observance which will be held in Bismarck Sept. 16-22 was also mentioned in this connection. It was urged that the D. A. R. use their influence in making this observance what it should.

SPEAKS AT ENDEAVOR.

Franco Crawford, son of Mr. and Mrs. Lewis F. Crawford, who has just recently returned from England, where he had been attending Oxford university, will speak at the regular meeting of the Presbyterian Christian Endeavor society, Sunday evening, Sept. 9, at 7 o'clock.

His subject will be the story of his travels in the Holy Land, where he spent his vacation the summer of 1922. Everybody interested, both old and young, are most cordially invited to come and hear him, as this is a rare opportunity to get the story of this experience first hand and from a young man.

NURSE VISITS HERE

Miss Rhoda Gartzke of Alexandria, Minn., a graduate of the Bismarck hospital, who has been visiting with friends here for several days left this morning for her home. Since graduating from the hospital training class Miss Gartzke has been engaged in nursing in Grand Forks.

U. C. T. MEETING.

A meeting of the U. C. T. will be held tonight at 8:30 o'clock at Elks hall. All members are invited to attend, since ladies of the Auxiliary will have charge. All visiting U. C. T. are invited to attend.

ENTERTAINS AT BRIDGE

Miss Marion Quain entertained at bridge this afternoon complimentary to a group of her classmates who are leaving in a short time for various colleges and universities. Four tables were in play.

RETURN FROM VACATION

Dr. and Mrs. Stucke and Miss Aldyth Ward have returned from a vacation trip to Parkers Prairie, Minn., and the lake region of the Twin Cities. They made the trip by automobile.

ENROUTE TO HAZEN

Misses Anna and Amanda Argole of Jamestown visited in the capital city yesterday. Miss Anna left this morning for Napoleon where she will teach while Miss Amanda returned to her home.

SCOUTS MEET

Troop No. 6 of the Presbyterian Boy Scouts had a 6:30 o'clock dinner at the Annex Cafe yesterday evening. Places were laid for 10. The boys considered plans for the winter season.

SENIOR CLASS ORGANIZES

The senior class of the high school met yesterday to organize and elect officers for the year.

George Knowles was elected president of the class; Wendelin Jones, vice president; Waldo Elksen, secretary-treasurer; Kenneth Preston, ed-

FOR EVENING WEAR

Metal cloth promises a great vogue for evening wear in Paris this coming season, but is not expected to be popular at the expense of brocades or embroideries.

The embroideries are becoming Chinese and Indo-Chinese now—Egyptian patterns are quite forgotten.

“Embroideries may be of beads, too, and it is quite the thing to have one's gown beaded in jewel-like designs.”

Satin and taffeta are the materials chosen for young girls' evening and dancing dresses. They may be embroidered or ruffled trimmed. Ribbon is used to decorate them in every possible fashion—as flounces, ruffles, and sashes.

Of the gowns sketched, one is of silver cloth beaded with rhinestones, the next of ruffled satin, the third of brocade and satin combined.

itor-in-chief of “Pep,” the high school newspaper, and Louis Grambs business manager. Reporters and other assistants on the paper will be appointed by the editor and business manager in the near future.

Cannot Use State Funds For Delegate

The state cannot use funds to send Mrs. Annie Two Bears, mother of Chief Albert Grass of the Sioux, killed in the World War in France, to Kansas City as a distinctive representative of the state at the American War Mothers convention. Governor Nestos has advised the War Mothers to this effect. However, he said he would be pleased to aid as an individual and head a subscription list with \$10. One hundred dollars will make it possible to send Mrs. Two Bears; an additional hundred dollars will make it possible to have two representatives of the Cannon Ball chapter of War Mothers. Contributions may be sent to Mrs. W. C. Cashman, Bismarck, state treasurer.

LEAVE FOR DICKINSON

Mrs. C. D. Taylor and Mrs. Eliza Suttle left this morning for Dickinson where they will visit with Mrs. Taylor's sister-in-law, Mrs. Dan Manning for a week. Then Mrs. Taylor will leave for Washington where she will visit for a short time before continuing to Colton, Calif., where she expects to spend the winter. Mrs. Suttle will return to Bismarck.

ENTERTAIN AT LUNCHEON

Mrs. R. Worth Lumry and Mrs. Birlea Ward were joint hostesses at an afternoon bridge at the Lumry home complimentary to Miss Ethel Barnes yesterday when four tables were in play. Mrs. John Cowan won the high score. At the close of the game luncheon was served. Beautiful bouquets of asters were used to ornament the tables.

MOVE TO BISMARCK

L. M. McBride, who has been employed by the Occident Elevator company at Arnold for the past eleven years has resigned his position and together with his wife, has come to Bismarck to reside for a time. The elevator has been closed for the season.

MOVE INTO NEW HOME

Judge Fred Jansoni is moving today into the home vacated by Dr. C. O. Robinson at 706 Fourth street. Dr. Robinson has moved into his beautiful new home on Avenue A.

VISIT SISTER

Miss M. E. Hennessey, bookkeeper at the Highway Commission, left this morning for Minneapolis, Minn., to spend a couple of weeks with her sister.

ON VACATION

Miss Hilmar Simonson, filing clerk at the office of the state highway commission, is spending her vacation visiting her sister at Galesburg.

PYTHIAN SISTERS

The first meeting of the season for the Pythian Sisters will be held Monday evening at K. P. hall. All members are urged to attend.

AMONG CITY VISITORS

Mr. and Mrs. T. F. Carroll of Mott, S. M. Hovdt and A. A. Sailer of Stanton, were among the city visitors today.

NURSE RETURNS

Miss Esther Erickson, nurse at the St. Alexius hospital, has returned from a two weeks vacation at Detroit, Minn.

GUEST OF MRS. COX

Miss Pauline McFarland of Valley City is a guest at the home of her sister, Mrs. Edward Cox.

Miss Lucile Heller of Willow City, was a city visitor today.

MAKE FIFTY RESERVATIONS

Red Cross Roll Call Luncheon Promises Snappy Meeting

Fifty reservations have already been made for the luncheon to be given at the Country Club Monday noon when the Red Cross Roll Call and the question of Japanese relief will be discussed by Red Cross officials, the executive board, and various chairmen and committees.

A. L. Schaefer, director of the Junior Red Cross work of the state, Walter Wessellus, field director of the Red Cross for North Dakota, Miss Minnie J. Nielson, state superintendent, Father Slag, will speak and reports from the chairmen of the six counties included in this district will be given.

The discussions and reports will be short and snappy. It is expected at this time to schedule final arrangements for the Roll Call drive which takes place, Oct. 1-15 and to decide upon any steps necessary in the Japanese relief situation.

FR. BERNARD IN HOSPITAL

Father Bernard of St. Yates, one of the best known men in the reservation country, is recovering from an operation in St. Alexius hospital. While Father Bernard has improved his condition is still said to be serious.

Trade Unions Thank Citizens

At a meeting of the Bismarck Trade Union Assembly at its last regular meeting, Sept. 6, a unanimous vote of all delegates present thanked St. Mary's School band, the business men of the city, the Press, and all the citizens who helped in such a generous manner to make the Labor Day Celebration a success.

Playgrounds Close For Season Now

With the closing of the playgrounds for the season the following letter of appreciation has been sent to the Tribune in behalf of the children who enjoyed the playgrounds:

“The children of Bismarck wish to thank the Community Council for making the playgrounds possible for the children of Bismarck in the past year. The Association of Commerce for the sand boxes, and their splendid co-operation throughout; the Rotary club, Mrs. George D. Mann for the balls, bats and volley balls, and the highway commission for the sand furnished. Especially do they thank all the volunteer workers who have given freely of their time.”

AT THE MOVIES

THE ELTINGE

Theodore Roberts without his ever-present cigar! We find him thus in the Paramount picture, “Grumpy,” which comes to the Eltinge Theatre Monday and Tuesday.

There is deep mystery and mirthful comedy in the production. Mr. Roberts fits the title role to perfection. May McAvoy and Conrad Nagel are featured players, while the heavy role is in the hands of Casson Ferguson. The remainder of the big parts in the picture are played by Bertram Johns, Charles Ogle, Robert Bolder, Charles French and Bernice Frank.

CAPITOL

A powerful dramatic situation that calls for all of Henry B. Walthall's power of vivid dramatic pantomime is portrayed in the new Fox special, “The Face on the Barroom Floor,” which comes to the Capitol theatre next Monday.

Walthall, as the leading man in the production, bears the part of an artist who is “framed” and sent to prison. He escapes during a jail-break and jumps into the sea, swimming to a neighboring lighthouse. There he finds one of the keepers dead and the other ill of influenza. He rushes into the breach, takes care of the light, and saves a ship in distress. He wins a pardon through his heroic behavior.

INJURED AT PLAY

Tony, son of Mike Schneider, section foreman on the Soo railroad, is in the St. Alexius hospital for treatment as a result of injuries sustained yesterday while at play.

COUNTRY CLUB DANCE

About 30 couples enjoyed the dance at the Country club yesterday evening. The McKenzie orchestra furnished special music for the occasion.

CATHOLIC DAUGHTERS

A meeting of the Catholic Daughters of America will be held Monday evening at 8 o'clock at St. Mary's school auditorium.

VISITING SON

Mrs. R. L. Perry of Valley City is spending the week end as the guest of her son and daughter in law, Dr. and Mrs. H. T. Perry.

BACK FROM VACATION

Mr. and Mrs. O. W. Roberts are expected to return Monday from a vacation trip through the South Dakota Black Hills.

Miss Gertrude Jennings is leaving for Washburn by car Sunday morning, when she is going to teach school this term.

STOPS OVER

Miss Edna Jones of Grafton stopped over here for a short visit with friends on her way to Hazen where she will teach.

CITY SHOPPER

Mrs. W. L. Staley of Hazen is spending a few days in the city shopping.

CITY VISITORS

Mr. and Mrs. H. A. Armstrong of Hazen visited and shopped here today.

Mrs. Montith of Haselton stopped over in Bismarck yesterday on her way home after visiting in Montana.

E. C. Andrum of Beulah, and L. E. Drewakracht of Golden Valley, were among the city visitors.

Coat and Cape Combination Is Full of Style

With all the dashing style of a cape and all the snug comfort of a coat—the “Coat with a Cape” is here to satisfy every demand for fall and winter.

The cape back reaches well below the waist. The double collar almost covers one's chin. The smart side closing may be marked by long ties or a buckle. Silk or metal embroidery of braid is used for the borders of trimming.

Parent: Does your child need extra help in either HIGH SCHOOL or GRADE SCHOOL SUBJECTS? I am now organizing classes to give such aid. Martha Becker Gale. Box 515. Phone 291.

Dancing! McKenzie Roof Garden — Tuesdays, Thursdays and Saturdays. 10c dances. Coolest spot in Bismarck.

NO JOB-HUNTING FOR THESE BOYS

Theo. E. Baier and V. M. Paranto began to “cash in” on their course at Dakota Business College, Fargo, N. D., the very day they graduated. The former was immediately placed with the First National Bank of Goodrich, the latter with the Standard Oil Co., (the 131st D. B. C. student employed by this one firm.)

Consider the advantage of attending a college whose students are in constant demand by reputable firms. Nearly 700 banks employ D. B. C. graduates. “Follow the Successful” NOW. Write F. L. Watkins, Pres., 806 Front St., Fargo, N. D.

MEMORY IS GOOD

But a Photograph is Better.

The Kiddies first days of school are Just as Sweet Memories as are their graduating days.

WHY NOT HAVE PHOTOGRAPHS of them as they first started to school? We specialize in Children's Photographs.

BUTLER STUDIO

ROBERTSON'S HAY FEVER CURE

Robertson has done something for the Hay Fever patients. There is no sprayer or nasal douche to buy, or disagreeable operation. You apply as directed. Very simple and easy to understand. Directions come with each bottle. It does not make any difference when you start to take the cure, it is relief immediately.

Price \$2.50.

W. B. ROBERTSON, Mandan, N. Dak.

CITY NEWS

Parents of Boy
Mr. and Mrs. G. W. Jennings of the city are the parents of a son born at the Bismarck hospital.

May Play Here.
The Washburn baseball team may play the prison team here tomorrow at the prison. The game was scheduled and presumably the Washburn players will be here.

Fire Destroys Stack.
Fire originating from lightning burned a six-ton hay stack on the Twin Butte farm of Schipfer and Lambert south of the city Wednesday, according to word brought in by neighbors today. Another stack of equal size was close by. Neighbors turned out en masse to fight the fire and succeeded in saving the other stack.

Bismarck Hospital
Mrs. R. C. Pravat, Wilton; Frayne Krause, Haven; Georgia Johnson, Washburn; Charles Anderson, Sterling; Miss Margaret Anna Lee, city, and Miss Anna Bivodan, city, have been admitted to the hospital for treatment. Fred Klingartner, Fremont.

Concentrate on keeping it as you concentrate on building it.

What thought and planning you put into it! How you watched it grow from a hole in the ground to a beautiful home! Think of how you saved, that your dreams might come true.

What if fire should come? Would your invested savings be swept away? Insure now and enjoy the comfort of a mind at ease. This agency will cover your needs with a policy in the Hartford Fire Insurance Company to pay for any loss by fire.

St. Alexius Hospital
Master Donald Fallgatter, Kintyre; Baby Gertrude Heider, Master Thomas Schneider, city; Baby Richard Johnson, Zap; Mrs. C. P. Hannan, Stanton; Viola Borth, Arena, and Mrs. Frank Montgomery have entered the St. Alexius hospital for treatment. Miss Florence Wessner, city; Master Martin Dittus, Elgin; Erich Engelbreton, Regan; Miss Kathleen Regner, Wilton; Simon Sasse, Golden Valley, and Master Gideon Heintz, Artes, S. D. have been discharged from the hospital.

Eliminating Uncertainty

The farmer's problem is everyone's problem. The success of some plan that has for its purpose the improvement of agricultural conditions will react to the benefit of both town and country.

The single-crop system of agriculture has proven itself impracticable. The “cow-sow-hen” program as a workable substitute is gaining ground rapidly. One of its chief values lies in the fact that it tends to eliminate the element of uncertainty from farming operations.

Intelligent discussion as to methods, coupled with their practical application, will assure success and bring increased prosperity to this community.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SUPPORT THE CAUSE

Burleigh county's quota for the Japanese relief fund is only \$500. This should be subscribed in a few days by voluntary subscriptions. It should not be necessary to go out on a special drive for such a small sum.

The Red Cross chapter of this county has been doing efficient work without much noise or flutter. It maintains in conjunction with the Association of Commerce a social registration bureau where charity cases are listed, duplication eliminated and unworthy applications for funds denied. Miss Mary Cashel, the welfare worker, has weeded out many chronic cases of mendicancy and has so reduced the demands to actual, worthy cases that there will be no need for a community chest drive.

The citizens of Burleigh should support the coming Red Cross roll call. Strange as it may seem a greater portion of the calls for poor relief come from points beyond the city limits. Many sections of Burleigh county are cooperating with Bismarck Red Cross members and do efficient work. About \$4,000 will be needed to carry on the various phases of the Red Cross work next year. Much of this money is used to assist service men. Then there is the general welfare and health work which some agency must do if relief is to be speedy and efficient.

Next month the campaign for Red Cross funds will begin and there should be a ready response.

Support the Red Cross chapter in Burleigh. It is a branch of the greatest and most efficient society of its kind in the world.

FEDERAL AID

Opinions differ upon the value of various federal aid projects. Those jealous of state rights advance the argument that federal aid projects merely lead states into extravagant appropriations lured by the fact that the federal government will duplicate or match state appropriations for road, health and other kinds of work.

There is probably a modicum of truth and some force in this argument, but the system of federal aid should not be wholly condemned. Like any governmental project, federal aid as an inducement for state appropriation to carry on public health campaigns is to a great degree educational in character and has spurred many states neglectful of this work to greater endeavor.

Here in Burleigh county without federal aid the Bismarck-Mandan bridge might never have materialized; federal aid along agricultural lines which state legislatures have matched up to the millions has been employed to fight rust, bollweevil, and many other scourges that menace agriculture.

Before the federal government took up the various kinds of public welfare work many states were indifferent and to overcome this inertia, federal aid has been a powerful agent.

A sweeping or blanket indictment of federal aid projects cannot stand in the light of great accomplishments. Bureaus may have flourished and governmental overhead increased, but viewed impartially their increase has been insignificant in comparison to the multiplicity of commissions and boards in the various states which serve no legitimate governmental function.

Federal cooperation in the building of roads and bridges is a most admirable undertaking and has done much and will continue to do more in securing joint action on the part of the different states in linking up effectively the great highways of the nation.

This is a most legitimate function of government and so are many others, much more defensible than the state running a flour mill in competition with private capital and initiative.

COST OF LIVING

The cost of living is about three-fifths higher now than it was when the war started in 1914, according to National Industrial Conference Board. It figures on the basis of the requirements for the average American wage-earner with five in family.

In other words, it takes about \$1.60 to buy what cost \$1 in 1914. To counteract this situation, the average person should be getting an income three-fifths higher than before the war. Divide your income by 16, then multiply it by 10 and you'll have your present buying power in terms of the 1914 dollar, for comparison.

Most of us will consider the board's estimate (three-fifths rise in living costs) too conservative.

DIFFERENT NOW

England in the first six months this year bought about \$3 million dollars worth of goods from Germany, compared with 60 millions in the corresponding period of 1922. English exports to Germany increased similarly.

A few years ago the war-maddened English and Germans were swearing never again to trade with each other. Nations quickly bury the ax when they can see a profit in the burial. War and peace are interwoven with commerce. Free-traders nod approvingly.

FREE SPEECH SAFETY VALVE

A committee of lawyers, reporting to the American Bar Association, is alarmed because it understands that there are a million and a half radicals in the United States.

This shouldn't alarm even an 1890-model mind. For, out of these 1,500,000 radicals, at least 1,450,000 of them don't want to do anything except talk.

Free speech is democracy's safety valve.

SUGAR HEADS IMPORTS

Sugar now heads the list of our imports from other countries. Raw silk formerly had the leadership. Americans are the champion sugar gluttons of the world. The effect on us nationally? Increase in diabetes, destruction of teeth and over-burdened digestion. Sugar is a stimulant.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed to the hilt of the day.

WHY THE PUBLIC IS IMPATIENT

Coal operators are said to have taken offense at Governor Pinchot's charge that "the whole body of wage rates in the anthracite field is antiquated, haphazard, and honey-combed with inequalities, and needs revision." From reports of the United States coal commission it appears that the terms might well be applied to the industry in whole. Investigation after investigation has been made by congressional committees, and each has returned with the report that the entire industry is riddled through with antiquated methods and wasteful practices for which the public must foot the bill. Yet nothing has been done about it.—Milwaukee Journal.

APPROVES DAIRY SHOW

The Bismarck Tribune is advocating the establishment of an annual corn and dairy show for Burleigh county. It is a timely suggestion, and one that Emmons county could well consider, too. The ordinary county fair is a time-honored institution, but it has generally featured raising of wheat, even though other grains and products made up most of the entries. We have been having our stock shows for several years with the people of the Hazleton neighborhood bearing nearly all the burden. If the project was enlarged to embrace the entire county, and to feature corn production as well, we believe that an important step in the dairying and stock-raising industry would have been taken.

When farming will break any county in the Missouri Slope, it isn't anything like a sure shot even in the Red River Valley. The corn and dairy business is our salvation, and an Emmons county corn and dairy show would do much to get the individual producers interested in that kind of farming.—Emmons County League.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

NANCY AND Nick stayed with Mister Gallop in his rocky cave when they were not traveling around with him on their ponies.

Each of them had a nice soft bed made out of smelly pine needles and covered by soft Indian blankets.

At night when Snow and Blackie and the three ponies were out grazing sweet grass and the leaves of mountain daisies, which they dearly loved, their little master and mistress and the wee fairymen were dreaming fine dreams of new adventures.

But one night while they were sound asleep and dreaming dreams by the yard, something more real was happening.

"Tippy Trade Mouse neeped in." The cave was as dark as a fruit cellar because the moonlight and twilight couldn't leak in, but Tippy Trade Mouse's eyes were just made for the dark and he could see everything.

He sniffed at Mister Gallop's laso and his high cowboy boots, and he sniffed at Nancy's clothes laid in a neat pile over a chair back, and he sniffed at the magic shoes standing in a neat row under the beds.

Then he came to Nick's clothes laid in a pile at the foot of his bed ready to jump into in the morning. Tippy Trade Mouse jumped up and sniffed at Nick's clothes. "Ah, ha!" he said, "winning his bright little eyes." "Here's the very thing I've been wanting!" And he took Nick's shirt in his teeth and dragged it out into the moonlight.

Then he set to work and chewed and chewed and chewed. "I mustn't make a hole!" he kept saying. "That wouldn't be nice of me at all! I mustn't make a hole. I'll have to be very careful."

After while he finished what he was doing, and dragged the shirt back again.

Then he went away, carrying something in his mouth.

And by and by he came back carrying something else in his mouth and laid it in the shirt.

This he did six times. Then he left for good.

"Oh, look!" cried Nick when he went to put his shirt on next morning. Somebody's cut all the buttons off my shirt and left six little stones instead."

"It's Tippy Trade Mouse, as sure as anything," said Mister Gallop. "He is always trading something for something else, and nobody knows what he wants it for."

A Thought

Whatever thy hand findeth to do, do it with thy might; for there is no work, nor device, nor knowledge, nor wisdom, in the grave, whither thou goest.—Ecc. 9:10.

Toil, feel, think, hope; you will be sure to dream enough before you die, without arranging for it.—J. Sterling.

Turkey Thief of July Is Caught

Jamestown, N. D., Sept. 8.—Ed. Putnam, of near Courtway, was given a suspended sentence of thirty days in jail this week for a city stealing when he pleaded guilty to stealing a flock of thirty-two young turkeys from a field last July, belonging to John Reek. A neighbor, hearing of the theft, happened to remember seeing a man catching turkeys, and putting them in a sack. He also remembered the man's name, and "Pete" Reek, the thief, was caught.

Wonder When Ca's Gonna Unpack This One

The Tangle

LETTER FROM LESLIE PRESCOTT TO ALICE HAMILTON, CONTINUED

When I reached the part of my letter where I was telling you about my Eden, Alice, dear, Jack, found home and asked me to take him for a drive in my new car. It is a lovely one and I am very proud of it, but more than all the rest I am proud of the fact that I am able to drive again without being scared.

Mother tells me that Ned has brought you a string of real pearls. She asked me about it, dear, and I told her to him how they were for me. I don't want to tell you that I know that he looked upon you just as his little sister and of course we both know he has so much money he doesn't know what to do with it. Sometimes it is more graceful to accept a gift than to refuse it.

I'll bet you they don't look as pretty as that string of beads you gave me. Sometimes I think it is all nonsense to buy real pearls when you can have imitations that look as well as these lovely ones of mine.

I do wish you would try and get me another string of them and also I wish you wouldn't be so mysterious about where you got them. I would like to give some to Beatrice Grimshaw for a wedding present. You remember I wrote you that I thought I would divide this string with her since it is such a long one. You made such a fuss about it that I decided not to. To tell the truth, I have grown so fond of them that I rather hate to let it go away.

So you think Betty Stokely is going to fall in love with an Englishman, do you? Don't you do it, my dear, for when it comes time for you to get married there is no man who is worthy of an American girl but an American.

Italians and French and Serbians, they tell me, make great lovers. I wasn't allowed to find out when I was in Paris.

When are you going back to London? Honestly, Alice, I think your sounding over to Paris, you and Betty, with only Karl for a chaperon, is exceedingly flippant. I can't understand how Mrs. Stokely could let you do this. Now don't be angry for I haven't told mother what I thought of it at all and I don't think she would have let you have the pearls if I hadn't said I thought it was all right for you to accept them.

You say, Alice, dear, that you think a woman must love a man a great deal to bear him children. Well, I love Jack so much that when even mother asked me to go over with her to England this fall, when she went to bring you home, I declined. I just couldn't leave my husband and my baby.

I don't want you to stay over here later than October, for I intend to have Junior baptized on Thanksgiving Day, and you and Sydney Carton are to be godmother and godfather.

Lots of love, my dear, and I hope you are as happy in England seeing all the sights as I am over here with Jack sitting on the arm of my chair and my baby's head snuggling up close against my bosom.

LESLIE.

PAINFUL ACCIDENT.

Wilton, N. D., Sept. 8.—Marl White suffered a painful accident this week when he was crushed between two horses and nearly smothered. He has recovered.

EVERETT TRUE BY CONDO

HEY! WHAT'S THE IDEAR?

THIS "IDEAR" IS THAT IF YOU WANT TO PARK YOUR BOAT IN HERE, DON'T STRADDLE THE SPACE MARKED FOR TWO CARS!!!

There would be a peach shortage if you didn't have to peel them.

Somebody is always favoring a drastic change in something.

Blessings of Citizenship

By F. E. Schortmeier

I am an American

I am protected by rights and encouraged in my possibilities.

I live under the first stable government known to man, which neither the passions of the few nor the whims of the many may destroy.

I may worship God as my conscience impels.

I think, so long as I do not plot to overthrow by force the very power which gives me this vast opportunity.

I am protected against bodily harm.

I am secure in my worldly goods and no power can take them from me.

Tom Sims Says

After being single 38 years Bluefield (W. Va.) girl got a hubby at last, thank goodness.

Michigan (Ind.) maiden sisters, aged 60 and 70, married same day, love and hope, girls.

Boston man of 60 swam 14 miles. We don't know if an old maid was after him or not.

Great news for horses. Italy has decided cavalry is useless.

Printers will hold their next convention in Canada, much to their wives' surprise.

Bad news for boarders. Potatoes are plentiful this year.

Leather dealers hold their next meeting in Iowa. A ruling on restaurant steaks is expected.

Women are so touchy. Detroit one asked divorce just because he split a plank over her head.

It seems only natural that the throne is slipping in Greece.

Seven Ohioans held a picnic up in a balloon, which is one way to keep things out of the lunch.

First frost reported in New York. That place claims everything.

Detroit robber was a college graduate. Not long ago girls of that age couldn't even spell it.

Michigan man's auto tag was 15 years old. New things don't last like the old ones did.

Even basketball is dangerous. In New York a girl's cheering a player led to marriage.

Chicago woman lost a \$14,000 necklace in Paris. Could have lost more than that at home.

Wisconsin farmer found dynamite in oats. Suppose he had fed the horse and kicked him?

About 9000 patents are sought monthly and pickle bottles as hard to open as ever.

About twenty million pieces of mail reach the dead letter office yearly, none bills.

There would be a peach shortage if you didn't have to peel them.

Somebody is always favoring a drastic change in something.

Northwest News

N. D. Man Makes Record Non-Stop Airplane Flight

La Moure, Sept. 8.—With long distance air flights records falling in amazing succession, it remained for a North Dakota man, Harrison C. Crocker, of the United States army air service, son of Mr. and Mrs. W. G. Crocker of Lisbon, to make what is said to be the longest one-man non-stop airplane flight.

Taking off from Ellington field, Houston, Texas, Lieutenant Crocker circled over the waters of the Gulf of Mexico, and then flew 1,185 miles to the Canadian border near Detroit, Mich., in 11 hours and 29 minutes.

He used a plane fitted with a Detroit built 400 horsepower Liberty motor, and carried 240 gallons of gasoline with a 25 gallon reserve. In sight of the border he had to draw upon the reserve supply. At times he flew above the clouds at 5,000 feet, and at others about 800 miles flew only about 150 to 500 feet above the ground. He passed through 29 thunder and rain storms.

New Pastime in Jamestown For Pre-Season Hunting

Jamestown, Sept. 8.—The first phase of hunting has begun in the antelope hunting season. Jamestown, who cannot wait for the hunting season to open, for there are hundreds of big rats infesting a dump pile near the city, and the hunters have chosen this as their pre-season hunting ground. The "hunters" drive up to the rubbish heap with their lights on, and suddenly turning them on, take aim and shoot before the rodents have a chance to run.

L. W. W. Men Forced Off N. P. Freight

Carrollton, N. D., Sept. 8.—The unfounded assumption that railroad men have in the past helped the L. W. W. to enforce their red card law as a permit for box car riding, received another jolt when a conductor at N. P. freight train recently compelled them to share the company of three or four "redies" that they contemplated kicking off as they did not carry the usual permit, but also notified the officers at Melville, the next station, to be on hand to run them off. However, present when the train arrived at that point.

Moorhead Teacher To Iowa College

Moorhead, Minn., Sept. 8.—Dr. Homer B. Reed, professor of psychology at the Moorhead State Teachers college for the past year, leaves the last of this week for Grinnell, Ia. Reed was recently elected to the head of the department of education and psychology.

Dr. Reed received his Ph. D. degree from the University of Chicago and since then has been professor at the Colorado State Teachers college at Greeley, Col., and at the University of Idaho, and professor at the Moorhead school. He has written articles and some research work in his field that have brought him wide recognition.

without fair compensation and the due process of just laws.

If I am accused of wrong doing, 12 of my peers, reasonable and without interest will judge of my guilt or innocence. I pay the penalty only for my own acts and not for those of my blood. I am held blameless until I am proved responsible.

If I make a just contract, no power can overrule it.

I may secure an education free, merely for the seeking and my self-improvement depends entirely upon my own diligence. The treasures of the ages await me at free libraries. If I will but seek them.

I can live with my loved ones, in peace if I choose, and in sufficiency, if I will.

I have the unrestricted opportunity to work, and shall merit as I am worthy. My achievements are limited only by my own personal limitations, and except for myself, I am unlimited.

Opportunity awaits for me with the rising sun, anew each morn. What I shall do with the day is for me, alone, to say.

Wherever I may go on the face of the globe, I am safely guarded by the folds of the American flag.

For all of this—I pay nothing, except a mere fair pitance. All this is free to me, an American.

Good and true men and women before I came had prepared the way for me through hardship and sacrifice and death.

Even if I would, I can not say, "My cup runneth over." I can only safeguard, conserve, foster and honor that which was given to me.

I am free, to think and to do. I am an American!

A PROCLAMATION

WHEREAS, The Constitution of the United States of America was adopted on the seventeenth day of September, 1787, and

WHEREAS, The government of the United States of America since that time has been and is today the one created by such Constitution; and

WHEREAS, The Constitution of the United States by its own terms purports to be, and is, the Constitution of the people of the United States of America and constitutes the fundamental law of the land, safeguarding to each individual citizen inalienable rights against infringement even by the government itself; and

WHEREAS, All accomplishments of the nation have been made possible by and under the provisions contained in that constitution; and

WHEREAS, The fundamental idea on which the American government as established by the Constitution is builded, is that the will of the people when expressed in the manner prescribed by the people in the Constitution shall be and is the law of the land, and inasmuch as the will of the people so expressed is the voice of the sovereign and it is manifest that the sovereign, then the sovereign itself, it is highly essential that every American citizen and those about to become citizens should be familiar with the fundamental law of the land, the rights safeguarded and the duties imposed upon each citizen thereby; and

WHEREAS, Those who have carefully considered this immortal document agree with James Bryce when he says that it:

"Ranks above every other written constitution for the intrinsic people, the simplicity, brevity and precision of its language, and the excellence of its scheme, its adaptation to the circumstances of the judicious mixture of definition in principle with elasticity in detail;" and

WHEREAS, The National Society of the Sons of the American Revolution has requested that the seventeenth day of September be designated as Constitution Day and that the whole week be set aside for the special purpose of studying the Constitution and its influence in moulding our national life.

NOW, THEREFORE, I, R. A. Nestos, Governor of the State of North Dakota, do hereby designate

September 17, 1923

as

CONSTITUTION DAY

and urge that during the week beginning September 16th the Constitution be read and carefully considered in our schools and colleges, and at public meetings in our state, and that, as a people, we recognize that to a more thorough study of the history, contents, interpretation, and value of our fundamental law.

Given under my hand and the Great Seal of the State of North Dakota at the capital at Bismarck, this 7th day of September, A. D. 1923.

R. A. NESTOS, Governor.

THOMAS HALL, Secretary of State.

Upham Girl Wins Scholarship; Will Study in France

Upham, Sept. 8.—Miss Myrtle Most of Upham, N. D., one of the 12 students from the United States who will study in France this year, under the direction of the International Education Institute, is now in New York and will sail for France on the steamship Suffren on Sept. 19, for Paris. She will study at the Ecole Normale de Saint Germain en Laye, located 16 miles from Paris, for the year. This school is considered one of the best in France.

The awards were based on the character, ability and personality of the students. Miss Most was graduated from the University of North Dakota last June.

Graduate of Velva High May Enter Olympic Games

Velva, Sept. 8.—Verna Booth, who spent the summer vacation at the home of his parents in Sawyer, returned east Wednesday. Mr. Booth is the world's greatest long distance runner. He is a student at John Hopkins university and will graduate from institution next year.

From now until the university opens in October Mrs. Booth will devote his time to running. In Chicago he will take part in the National Championship Track and Field Meet, running in the five mile event. Two weeks from now he will take part in the Pre-Olympic Track and Field Meet in New York, running in the 5,000 and 10,000.

Mr. Booth will undoubtedly be a member of the American team which will take part in the world's Olympic games in Europe next year. He is looked upon in the past as the greatest distance runner of the present time. He is a graduate of the Velva high school.

Stolen Car Is Recovered in Minot

Jamestown, Sept. 8.—Sheriff Rosa office received a telegram informing him that the Cadillac car stolen here last Thursday night from Ben Orady has been picked up at Plentywood, Mont. Two men were arrested there with it and a third escaped the authorities. The sheriff received a message yesterday asking for more information than his postal card notes of the theft had contained, and on receipt of this information from him the Montana authorities made the arrests. Plentywood is the county seat of Sheridan county, in southeastern Montana. County Attorney Chase is preparing requisition papers for the return to this state of the prisoners.

Car Goes Over Bank; 3 Injured

Cassellton, N. D., Sept. 8.—Mrs. Horace Clark, of Wheatland, Minn., Peterson of New Bedford and Miss Margaret Clark, of Jamestown, were injured in an auto accident near Abaska Tuesday night, when the car in which they were riding went over a twenty-foot embankment. Mrs. Peterson, who was driving, lost control of the steering wheel when the car struck a deep rut in the road.

only by my own personal limitations, and except for myself, I

THE OLD HOME TOWN

OUT OUR WAY

IF IT WASN'T FOR HIS WIFE'S EFFICIENCY METHODS, SNOOZER SPINDELL WOULD NEVER GET ANYTHING DONE

WARN FARMERS OF SWINDLE.

Washington, Sept. 8.—Farmers who have been asked to invest in methods for producing illuminating and fuel gas from distillation of straw, are warned by the Department of Agriculture today to be on their guard.

Tests conducted by department chemists for several years appear to show that destructive distillation of straw or other cellulose material for the production of gas on a commercial basis is so far impractical.

Much of the advertising literature circulated among farmers exploiting various gas producing plants for rural use, has implied that these plants have received the endorsement of the department, and many complaints have been received.

BABE RUTH IS WHOLE SHOW IN THE AMERICAN

Leads in Batting, Total Bases,
Runs Scored and in Home
Runs this Season

HORNSBY GOES DOWN

Chicago, Sept. 8.—(By the Associated Press.)—Babe Ruth leads the batters of the American League but he has only a one point margin over Harry Heilmann of Detroit, and for a full day during the week he dropped into second place to Heilmann but was only a fraction of a point behind him. Ruth is hitting .383 and Heilmann .382. These figures are for players who have taken part in 80 games or more and included games of last Wednesday.

Heilmann led the league on Tuesday but on Wednesday, with Detroit .382, he regained supremacy. Babe also continues to show the way in total bases with 324, including 35 doubles and 10 triples, as well as his 31 home runs. He also leads in runs scored in his league with 123. Following Heilmann, Cleveland swings into the race with three in a row in Sewell with .377, Speaker with .366 and Jameson with .355. Eddie Collins, leading in both stolen bases and sacrifice hits, has 35 thefts to his credit and 35 sacrifices. Other leading batters are Eddie Collins, Chicago, .354; Ken Williams, St. Louis, .353; Manush, Detroit, .349; J. Harris, Boston, .344; Cobb, Detroit, .341.

A real contest has developed in the National League for the lead in hitting, as Hornsby of St. Louis, the pace maker, dropped eight points during the week and now leads Wheat of Brooklyn by the small margin of three. Hornsby has an average of .387 while Wheat has .384, according

to averages for 80 or more games and including games of last Wednesday. Last week the St. Louis star was a good 20 points ahead of his nearest rival but Hornsby was going back. Bottomley of St. Louis ranks third with .369, a drop of four points on the week.

While New York leads the league, that team can only boast of three 300 hitters, but in Frisch they have the leader in the total bases column with 267 and in Young they have the pace maker in runs scored with 110. Cy Williams of Philadelphia is away out in front in home runs with 33. Carey of Pittsburgh and Grantham of Chicago are tied for "stealing" honors, each having 39 to his credit. McNinn of Boston led the sacrifice hitters with 27. Other leading batters are:

Roush, Cincinnati, .353; Fournier, Brooklyn, .350; Young, New York, .346; Traynor, Pittsburgh, .344; Hargrave, Cincinnati, .344; Frisch, New York, .341; Barnhart, Pittsburgh, .333.

Among the regular National League pitchers, Luque of Cincinnati is leading with 22 wins and 6 defeats, while Vance of Brooklyn leads in strike outs with 152. Ryan of New York ranks second in wins and losses with 12 victories and 4 defeats, and Adams of Pittsburgh is third with 13 wins and 5 defeats. Alexander of Chicago is fourth with 10 victories and 8 defeats.

East of Minneapolis, leads the hitters in the American association but is only one point ahead of Lamar of Toledo. While East dropped a single point during the week and now has an average of .395 and Lamar picked up 4 points for an average of .394, yet East hanged his way into the lead in total bases with 322 and tied up with Bunny Brief in the lead for home run honors with 27. The averages include players who have participated in 80 or more games and include games of last Wednesday.

Terry of Columbus dropped nine points during the week but continues in third position with .381. Combs of Louisville is fourth with .377 and Brief of Kansas City is fifth with .366. The latter leads in runs scored with 134, is second in total bases with 321 but lost undisputed position of home run honors when he failed to connect with any during the week, while East was making four of them.

**Rough Riding Gave
Way To Boxing**

New York, Sept. 8.—Luis Angel Firpo is the "rough guy" of the Argentine. Before he became a pugilist he was

barred from two of the republic's popular games, soccer and "rosario." A member of one of Buenos Aires' leading soccer teams, he so frequently incapacitated opposing players in apparently accidental collisions that nobody would play against him. He was too strong and too rough, they said. So Luis Angel looked around for another game to play.

Being an expert horseman he decided on "rosario." In this game a rose is pinned upon the sleeve of a horseman who sends his steed galloping across the field. When he crosses a certain line, another rider starts in pursuit. The pursuer must pluck the rose from the sleeve of the pursued before the latter reaches the end of the field, in order to score a point. Firpo developed a habit of plucking the rider along with the rose, and when he took up boxing.

REDS REMAIN AT STANDSTILL IN NATIONAL

Split Double-Header with St.
Louis While New York
Giants Are Defeated

(By the Associated Press.)

Chicago, Sept. 9.—The Cincinnati Reds remained stationary yesterday by splitting a double-header with St. Louis, while New York dropped down a little closer to them and the Pittsburgh Pirates dropped out a little from under. The New Yorkers are now four games ahead of the Reds in the National League pennant chase and the Pittsburghers are behind Cincinnati.

The feature of play yesterday was a no-run, no-hit game pitched by Howard Ehmke, Boston pitcher, in Philadelphia. The Athletics lost 4 to 0. Two Philadelphiaans reached first, one on a pass and one when Menosky dropped a liner. Philadelphia defeated the Giants in New York, 10 to 6. Cy Williams took the home run lead by hitting his 34th.

The Reds split with St. Louis, losing the first 5 to 1, and winning the second 8 to 5. Rogers Hornsby took hitting honors with a pair of homers and ran his season's total up to 17. The Pirates lost to the Cubs, 6 to 4, in Pittsburgh.

Chicago also won in the American League, defeating St. Louis, 7 to 2,

Brooklyn lost in Boston, 11 to 2. Detroit beat the Indians in Cleveland, 11 to 9, in a game in which eight pitchers, four on each side, were used.

RECORD SEAT SALE IS SEEN

New York, Sept. 8.—The advance sale of tickets for the Firpo-Dempsey championship fight, at the Polo Grounds next Friday night, has amounted to approximately \$200,000 so far, Tex Richard revealed last

night. The promoter declared it exceeds the advance sale for any previous title match he has promoted, including the Dempsey-Carpenter fight which established a record "gate" of \$150,000 two years ago.

In the event of a call out for the Dempsey-Firpo match, Richard said, the total receipts will reach \$1,250,000. The seating capacity of the Polo Grounds will be about 30,000.

Half of this amount or more than \$600,000 would go to the fighters under the terms of their contracts, for they are to get 50 per cent of the gross total. Dempsey, whose share is 37 1/2 per cent, would receive more than \$250,000 and Firpo, with 12 1/2 per cent would get more than \$150,000. These percentages are fixed as the minimum by the state athletic commission.

LE ROY BEATS JOHNNY NOYE

Sioux Falls, S. D., Sept. 8.—Johnny Noye, St. Paul lightweight, was knocked out in the ninth round of his scheduled 10-round bout with Russel LeRoy of Fargo here last night. The Minnesota boxer was no match for the Fargo flash, who pummeled his opponent all around the ring in every round and apparently could have finished the fight sooner.

However, he seemed content to wear down Noye gradually with stiff body blows and solid punches to the jaw. LeRoy's footwork and technique were pretty, to watch and inspired him of a following here for future bouts.

MANDAN NEWS

AWARD PAVING BIDS SEPT. 12

Notice has been given that Sept. 12 has been set as the day for selection of material and awarding of contract for the paving work in Mandan by the City Commission.

New bids called for by the commission in the re-publication of the resolution and call for bids were opened Wednesday night with five contractors submitting the competition. Woodrich and company low on the earlier bids on concrete paving were again low, while S. Burch & Sons were low on bids for laying bituminous patent process paving.

When bids were received a month ago for the paving of about 20 blocks, protests that were filed were found to represent less than a majority of the owners of property affected. A small group of property owners then sought and secured a temporary restraining order from

Judge F. T. Lemke stopping further action towards award of contract to the ground that preliminary steps taken by the commission, were not properly executed.

Upon review of the case Judge H. L. Berry vacated the injunction on the grounds that the city had since

rectified its original mistake. Unless an appeal is taken from the opinion of Judge Berry the contract could be awarded on the old bids and in order to be "perfectly legal" the commission by resolution deferred action on the bid since Aug. 6 until Sept. 12.

The Hard Coal Industry On Trial For Its Life

A single act of tyranny in the hard coal fields may be the last straw to break, not the back, but the patience of a long suffering people. Already we read in the press of the country of plans that are being formulated for a possible permanent abandonment of anthracite coal by consumers; the immediate utilization of bituminous coal, coke, oil— and the speeding up of plans to supersede coal in industry with huge water-power electric projects, and even solar or atomic energy. From all of these far flung plans, The New York World deduces that, "The hard coal industry of Pennsylvania is on trial for its life." There is an illuminating article in The Digest this week that presents all of the facts on this timely subject.

The First Anniversary of FUN from the PRESS

It was just a year ago that The Literary Digest's short humorous motion-picture reel FUN from the PRESS was released. Almost from the first week, it became popular and each additional week but served to increase its popularity with the public. It is being shown in about 2,000 of the better class of motion-picture theaters through-

out the country. The high spots of the cleverest newspaper humorists and cartoonists are transferred to the screen in this jolly little reel and the public which attends theaters where it is shown may be sure of five minutes of laughter. There is a theater in your town presenting FUN from the PRESS. Why not drop in and see it?

ROMANCE LIES BEHIND CHAIN STORE GROWTH

Transact Almost 10 Per Cent
of Nation's Retail
Business

ECONOMY IN OPERATION

Feared at First That Their
Products Might be
Inferior

New York, Sept. 8.—One of the greatest romances in American retail business has been the growth of chain grocery stores, 20,000 of which now transact slightly less than 10 percent of the nation's retail grocery business, estimated at \$20,000,000,000 annually. If the present ratio of growth is maintained, this will be increased to 25 percent within the next five years.

Economy of operation by reason of the fact that the business is transacted on a cash basis with a heavy turn-over and small profits, and the rapid development of American suburban and community life, have been the two main factors responsible for this tremendous growth. Scientific investigation has revealed that a community of 1,000 persons will permit the operation of a chain store grocery at satisfactory profits, though one store can serve several times that number.

The first chain grocery stores in the country were viewed with suspicion on the theory that the lower prices they charged for a heavy turn-over and small profits, and the rapid development of American suburban and community life, have been the two main factors responsible for this tremendous growth. Scientific investigation has revealed that a community of 1,000 persons will permit the operation of a chain store grocery at satisfactory profits, though one store can serve several times that number.

The pioneer in the chain store field was the Great Atlantic & Pacific Tea Company, which was established in 1858. This concern now has more than 8,000 stores doing an annual business of approximately \$250,000,000. Unlike a number of other chain store concerns, the ownership and control of this organization has remained in the hands of one family.

The second largest chain grocery firm is the Jones Bros. Tea Company, which started with one store in Scranton, Pa., in 1873, and now has 620 stores in 200 cities, doing an annual business of approximately \$40,000,000.

The Jewel Tea Company has 527 branches from which 21,864 wagon and motor truck routes operate in 13 country also are more than 300 Piggy Wiggly stores, although they are not all owned by the same corporation.

Perhaps the greatest chain store concern in the country outside the grocery field is the F. W. Woolworth Co., which started with one store in Lancaster, Pa., in 1879 and now operates more than 1,200 stores doing an annual gross business of over \$167,000,000. The United Cigar Stores have approximately 2,450 stores.

Other large chain store concerns are the J. C. Penney Co., operating 382 department stores doing an annual business of more than \$50,000,000; the S. S. Kresge Company with 212 stores and annual gross business in excess of \$65,000,000; Schulte Retail Stores Corporation with 239 stores in 1922, doing an annual business of nearly \$25,000,000; the United Drug Company with more than 250 stores; the G. R. Kinney Company operating 131 shoe stores; the McCrory Stores Corporation with 165 stores, the S. A. Kress Co. with 150 stores and the Melville Shoe Corporation with 62 stores.

AGRIC SOCIETY PERFECTED

Fargo, Sept. 8.—Organization of the North Dakota Agricultural society yesterday, it was announced today by R. L. Webster, of the North Dakota Agricultural college who returned late yesterday.

The following officers named: President, E. Hillborn, Valley City; vice president, Geo. Will; secretary, S. F. Yeager, N. D. Agricultural college; treasurer, C. A. Chibberg, Hankinson. It will meet at Hankinson next year.

Will Confer On Smuggling

Washington, Sept. 8.—A formal agreement between the U. S. and Canadian authorities to confer at Ottawa in the near future on the liquor smuggling problem was announced today in correspondence made to the public by the state department.

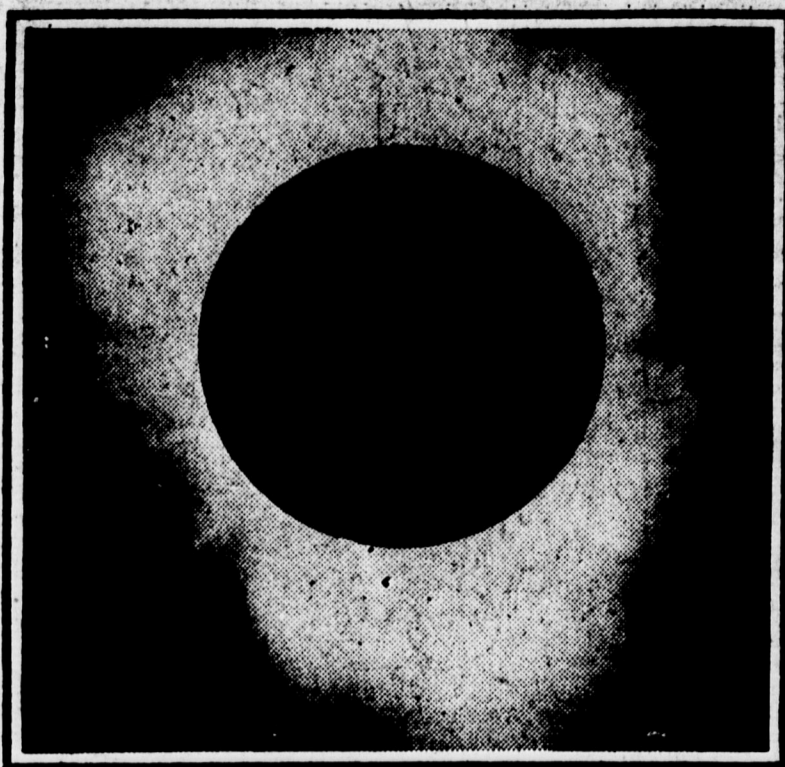

Dresden Hoards Rich Relics

Dresden, Sept. 8.—Art dealers and antiquarians here have few valuable objects of art left in their shops. Since the mark began its wild downward course and the distrust in money became so acute, Germans have been putting all their savings into articles which they believe to have a stable value in a world market. Old masterpieces, old furniture, old silver, old tapestries and old rugs have been eagerly snapped up if they had beauty and bore evidence of their age.

In many cases the dealers themselves withdrew the articles from the market if they were their own property. Shops, now devoid of choice pieces, keep up appearances by filling up their show windows with Chinese porcelain made as imitation of old wares and modern Russian oddities gathered from the mass of refugees which has come to Germany.

MAKE FARMS MORE INVITING

Work of County Agent Tends
to Place Country Life
on High Plane

Durham, N. H., Sept. 5.—Significant changes tending to check the economic trend which has been sapping farm life have been brought about by county agent work in the interest of better farming, according to a report of J. C. Kendall, director of cooperative extension work in the University of New Hampshire. Taking as a basis conditions in Sullivan county, where in August ten years ago county agent work was first begun, Director Kendall points to numerous developments which he attributes directly and indirectly to extension activities.

"In the first place, the spirit of aloof individualism has very largely gone," Mr. Kendall says. "People in the old days used to go to meetings to scoff at the agricultural specialist; now they stay and ask questions. They used to think it was a mistake to share their ideas on farming with each other; now they get together and discuss ways in which they can cooperate to advantage."

"But the advance has not been one in spirit only," he adds, and points to scores of new houses built according to extension recommendations, to standard feeding, the testing of two score thousands of birds, and to hillside of Macintosh apple orchards destined to the axe and saved only by demonstrations that the scab could be controlled."

The building up of co-operative associations, the tendency toward better sires, hundreds of alfalfa fields that yield three crops instead of two, farmers exchanges which do an annual business in the state of \$1,200,000 are all evidences of the movement, Mr. Kendall asserts.

Substantial results in making farm life more desirable for young people and their elders alike are also observable. He points to better balanced meals, more economical and attractive wardrobes, waxes of more prepossessing appearance and kitchens with modern conveniences. Last year 10,000 women worked together to make each other dress forms of gummed paper, co-operated in making patterns and helped each other make fireless cookers.

In addition, Mr. Kendall points to boys' and girls' clubs and asserts that the significance of 2,000 youngsters training in various farm and home projects is not to be easily waved aside.

Urge Irish Free State For League

Geneva, Sept. 8.—The Irish Free State, was recommended for admission to the League of Nations by unanimous vote of the commission of membership.

Japan Exports Fall Off Heavily

Tokio, Sept. 8.—Japan's foreign trade showed a marked decrease for the first six months of the present year compared with the same period last year, the imports still exceeding the exports. The former totalled 1,107,134,000 yen and the latter 714,658,000 yen, or an adverse balance of 392,478,000 yen.

Compared with the previous year the exports decreased by more than 20,000,000 yen while the imports increased by upwards of 2,000,000 yen. The exports to America, largely raw silk, increased by more than 48,000,000 yen, but the imports from America decreased by 113,634,403 yen. The decrease in imports from America was due to the lessened demand here for American wheat, raw cotton, lumber and iron.

Son of Head of Mellen Kennels Goes Into Second Series in Canada

GOING TO MINNESOTA

A. W. Mellen, proprietor of the Mellen dog kennels east of the city, and E. E. Simmons, representative in this territory for the Huskies Powder company, will leave Tuesday for Benson, Minn., for the dog field trials in that city. Mr. Simmons will take a dog which he purchased from the Mellen kennels and Mr. Mellen will take three of his best canines there also.

They returned a few days ago from Gainsborough, Saskatchewan, where the Canadian field trials were held. Mr. Simmons entered his Eugene Dick's Ghost, son of the head of the Mellen kennels, and the dog went into the second series, which is considered a very fine showing for a young dog. Competing in this derby were 45 dogs, the pick of the United States and Canada. Only 12 survived the first series. In the first series Eugene Dick's Ghost flushed several coveys, but in the second series unfortunately did not get on a birdy course. Had he done so and flushed a covey he would have placed, Mr. Simmons is sure. Eugene Dick's Ghost is an English setter of the most famous strain of this breed and many experts at the Gainsborough trials predicted a great future for him. Mr. Simmons will send him in the field trials in the south this fall and winter. Many of the dogs against whom he competed in Saskatchewan are priced at from \$4,000 to \$5,000.

Mr. Mellen has three dogs which he is taking to Benson of which great things are expected. He was unfortunate, however, in that a professional trainer he had engaged to prepare the dogs for the field trials became involved in a law suit in Portland, Oregon, and was unable to come here.

Ralph Kositzky of South Dakota, brother of C. R. Kositzky of this city, who also raises fine dogs, particularly pointers, and who stopped in Bismarck on his way to Gainsborough, scored a success with one of his entries, Mr. Mellen said. The dog went into the finals in the all-age series and although the dog did not place showed great form in the best company in the canine world.

FLYERS ARRIVE IN MILES CITY

Miles City, Sept. 8.—Lieut. Victor Bertrand and Lieut. Kenneth Garrett, army fliers on a path finding flight arrived here 5:25 p. m. Friday after bucking a strong head wind from Bismarck and hopped off at 9:15 today for Billings. They will stop at Helena and Spokane.

CITY BUILDING CONTINUES IN FALL SEASON

The season's building in Bismarck has not ended in the middle of the summer as in previous years. Many people have started their homes at the close of the spring rush, making the fall a fine season for building. Ten new houses have been started or are ready for construction work to begin since the first part of July. Adding these to the twenty-two which were built during the early part of 1923, Bismarck has a total of 32 new homes or remodeled homes constructed or under construction which will far exceed in value the \$140,550 estimated cost of the 22 new homes. This number brings up the total number in Bismarck to a high figure compared with other cities in the northwest.

Among the ten new homes planned are the following:
E. D. Hughes, 704 Twelfth street; J. L. Hughes, 519 Eleventh street; Thompson and Healow, four houses on Seventh and Mandan, remodeled; Peter Wilcox, corner of Sweet and Third; Mrs. Mary McKee, 515 Eleventh; John A. Hoffman, 108 W. Thayer; J. D. Hughes, 1012 Avenue B; Mrs. Edna E. De Rockford, 302 Park avenue, and Fred Morris, 318 Bell street.

U. S., MEXICO MAKE TREATY

Washington, Sept. 7.—Two conventions between the U. S. and Mexico providing machinery for the settlement of pending claims between the two countries and their nationals were signed today by the state department.

DECISION OF SUPREME COURT
From Grand Forks County
State of North Dakota, ex rel. Charles N. Claver, Plaintiff and Respondent, vs. John Broute, Mayor of the City of Reynolds, and others, Defendants and Appellants.

Syllabus:
1. Following Baker v. Lenhart, et al., N. W., recently decided by this court, it is held that certiorari does not lie to compel a city council to detach territory from the corporation, under Chapter 32, S. L. 1921. Appeal from the District Court of Grand Forks County, Hon. Charles M. Cooley, Judge.
Opinion of the Court by Johnson, J.

Reversed.
Birdzell & Christianson, JJ., concurring.
Bronson, Ch. J., dissenting.
I. A. Acker, Attorney for Defendants and Appellants, Hillsboro, N. Dak.
J. B. Wineman, Attorney for Plaintiff and Respondent, Grand Forks, N. Dak.

Model	Was	Now
Touring	\$525	\$495
Roadster	525	495
Coupe	705	730

Garage

A Smooth Stop with Havoline F

Smooth as Silk

If your Ford jars or jerks when you start or stop you may think you need new bands but in nine cases out of ten they have simply become hard and glazed from the use of improper oil.

Havoline F will stop the chatter. There is no oil that lubricates a Ford motor better and it keeps the gear bands soft and pliable. You will always be proud of the way your Ford performs if you use this remarkable oil.

Drain your crank case and fill it with Havoline F and the chatter will cease in less than a half mile.

QUANRUD, BRINK & REIBOLD

HAVOLINE
stops the chatter

The Overland WINS! ECONOMY TEST

At the Dickinson Fair last Wednesday afternoon an OVERLAND owned by Charles David, a rural route mail carrier, took first prize in a gasoline economy run staged by the Dickinson Fair Management. This is the result of the contest:—

FIRST PLACE OVERLAND	35 miles to the gallon
Second " Ford	31 miles to the gallon
Third " Gray	28 miles to the gallon
Fourth " Hupmobile	28 miles to the gallon
Fifth " Star	27 miles to the gallon
Sixth " Chevrolet	26 miles to the gallon

OVERLAND HAD GONE 20,000 MILES.

Mr. David, owner of the winning OVERLAND and also it's driver, stated that he had driven his car 20,000 miles and that the valves had not been ground in the last 7,000 miles. The car was entered in the contest just as it came off the mail route. In other words the OVERLAND car offers YOU the same economical operation and the same satisfactory service that Mr. David's OVERLAND gives him AND THE NEW PRICE IS ONLY \$495.00 F. O. B. FACTORY.

Drive an Overland and Realize the Difference.

Would Limit Age Of Public Servants

Tokio, Sept. 8.—The government has drafted and submitted to the throne for sanction regulations concerning the age limit for government officials at large. The bill is to be offered to the Privy Council for consideration at a special session in August. The question has been discussed by several cabinets but always has been pigeonholed.

The age limit proposed by the government is 63 years, the same as that for judges and procurators, with the exception of 65 years for president and procurator-general of the supreme court. Exceptions would be made for the state ministers, the privy councillors and officials appointed personally by the emperor, all of whom are now excluded from the age limit. Professors of imperial universities would come under the proposed age limit.

DODGE BROTHERS TOURING CAR

In city traffic or on the open road, this new touring car impresses you instantly with its exceptional riding comfort.

The seats are deeper and lower. The body has been lengthened to afford more leg-room. Its low-slung design reduces side sway and increases the car's stability at all speeds.

The front springs are wider, and built of more, and thinner leaves; the rear springs—now underslung—have been materially increased in length.

In fact, the comfort of the car is comparable in every way with its good looks and the well known character of its performance.
